#### INDEPENDENT AUDITOR'S REPORT

School Board Deuel School District No. 19-4 Deuel County, South Dakota

#### Report on the Audit of the Financial Statements

#### **Qualified and Unmodified Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Deuel School District No. 19-4, South Dakota (School District), as of June 30, 2022, and for each of the years in the two year period then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

In our opinion, except for the matters described in the "Basis for Qualified Opinions" paragraphs, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, Capital Outlay Fund, and aggregate remaining fund information of Deuel School District No. 19-4, South Dakota, as of June 30, 2022, and the respective changes in financial position and cash flows, where applicable, thereof for each of the years in the two year period then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund, except for the Capital Outlay Fund, of Deuel School District No. 19-4, South Dakota, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for each of the years in the two year period then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Basis for Qualified Opinions**

The School District did not adopt Governmental Accounting Standards Board (GASB) Statement No. 84 *Fiduciary Activities*, which is a departure from accounting principles generally accepted in the United States of America (USGAAP). The amount by which this departure would affect the financial statements is not reasonably determinable.

The School District did not adopt Governmental Accounting Standards Board (GASB) Statement No. 87 Leases, which is a departure from accounting principles generally accepted in the United States of America (USGAAP). The amount by which this departure would affect the financial statements is not reasonably determinable.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis four our audit opinions.

Members of the American Institute and South Dakota Society of Certified Public Accountants

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- · exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the School District's ability to continue as a going concern for a
  reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedules, Schedule of the School District's Proportionate Share of the Net Pension Liability (Asset), Schedule of the School District Pension Contributions, and Schedule of Changes in School District's Total OPEB Liability, Related Notes and Ratios be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States

of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The School District has omitted the Management's Discussion and Analysis (MD&A) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Reporting Required by Government Auditing Standards

Filliam Meale & Co., P. C.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 8, 2023 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Watertown, South Dakota

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2022

Net Change in Fund Balances - Total Governmental Funds		\$	9,553,700.12
Amounts reported for governmental activities in the			
statement of activities are different because:			
This amount represents capital asset purchases which are			
reported as expenditures on the fund financial statements			727 240 00
but increase assets on the government-wide statements.			737,218.99
This amount represents the current year depreciation			
expense reported in the statement of activities which			
is not reported on the fund financial statements because			
it does not require the use of current financial resources.			(143,105.78)
In the statement of activities, gains and losses on disposal of			
capital assets are reported , whereas, in the governmental			
funds, the proceeds from the disposal of capital assets is			
reflected, regardless of whether a gain or loss is realized.			(58,625.10)
		400.000.00	
Payment of principal on long-term debt is an expenditure in	Capital Outlay Certificates Premiums on Bonds Issued	430,000.00	
the governmental funds but the payment reduces long-term	Fremiums on bonds issued	710.48	400 740 40
liabilities in the statement of net position.			430,710.48
The issuance of long-term debt is an other financing source	Capital Outlay Certificates	(9,955,000.00)	
in the fund financial statements but an increase in long-term	Premiums on Debt Issued	(41,385.70)	
liabilities in the government-wide statements.			(9,996,385.70)
In both the accomment wide and fund financial statements			
In both the government-wide and fund financial statements, revenues from property tax levies are applied to finance			
the budget of a particular period. Accounting for revenues			
from property tax accruals in the fund statements differs			
from the accounting in the government-wide statements			
in that the fund financial statements require the amounts to			
be "available." This amount reflects the application of both			
the application period and the "availability criteria."			(19,841.14)
Governmental funds do not reflect the change in Other			
Post Employment Benefits (OPEB), but the statement of activities reflects the change in OPEB through expenditures.			5,299.00
activities reneals the change in Or LD through experiutures.			3,233.00
Changes in the pension related deferred outflows/inflows			
are direct components of pension liability (asset) and are			
not reflected in the governmental funds.			254,234.51
Change in Net Position of Governmental Activities		œ.	763,205.38
Change in Net Position of Governmental Activities		<u> </u>	103,203.30

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the School District conform to generally accepted accounting principles applicable to government entities in the United States of America.

### a. Financial Reporting Entity:

The reporting entity of Deuel School District No. 19-4 (School District), consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The School District is financially accountable if its Governing Board appoints a voting majority of another organization's governing body and it has the ability to impose its will on that organization, or there is a potential for that organization to provide specific financial benefits to, or impose specific financial burdens on, the School District (primary government). The School District may also be financially accountable for another organization if that organization is fiscally dependent on the School District. The School District does not have any component units.

The School District participates in the Northeast Educational Services Cooperative with twenty-four other school districts. See detailed note entitled "Joint Ventures" for specific disclosures. Joint ventures do not meet the criteria for inclusion in the financial reporting entity as a component unit, but are discussed in these notes because of the nature of their relationship with the School District.

#### b. Basis of Presentation:

#### Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources in a net position form (assets minus liabilities equal net position). Net position is displayed in three components, as applicable, net investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

#### Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/ expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the School District or it meets the following criteria:

- Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- 2. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
- 3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the School District financial reporting entity are described below within their respective fund types:

#### Governmental Funds:

General Fund – A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the school district, excluding capital outlay fund and special education fund expenditures. The General Fund is always a major fund.

Special Revenue Funds – Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Outlay Fund – A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of or additions to real property, plant or equipment, textbooks, and instructional software. This fund is financed by property taxes. This is a major fund.

Special Education Fund – A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the School District. This fund is financed by property taxes. This is a major fund.

Capital Projects Funds – Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

The School Addition Fund is the only capital projects fund maintained by the School District. This is a major fund.

#### **Proprietary Funds:**

Enterprise Funds – Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met.

- a. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit, even if that government is not expected to make any payments, is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
- b. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- c. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Food Service Fund – A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

Preschool/Driver's Education Fund – A fund used to record financial transactions related to the preschool and driver's education programs. This fund is financed by user charges. This is a major fund.

#### **Fiduciary Funds:**

Fiduciary funds consist of the following sub-categories and are never considered to be major funds:

Private-Purpose Trust Funds – Private-purpose trust funds are used to account for all other trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The School District maintains only one private-purpose trust fund for the purpose of accounting for the assets held in a trustee capacity for scholarships.

Agency Funds – Agency funds are used to account for resources held by the School District in a purely custodial capacity (assets equal liabilities). Since agency funds are custodial in nature, they do not involve the measurement of results of operations. The School District maintains agency funds for the purpose of accounting for the assets held in a trustee capacity for various classes and clubs within the School District. The agency funds are used to account for the revenues and expenses that are incidental to each class and club.

#### c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

#### Measurement Focus:

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

#### Fund Financial Statements:

In the fund financial statements, the "current financial resources" measurement focus and the modified accrual basis of accounting are applied to governmental funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary fund types.

#### **Basis of Accounting:**

#### Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

#### Fund Financial Statements:

All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period for the School District is 60 days. The revenues which are accrued at June 30, 2022 are utility taxes received through the counties and State and restricted grants-in-aid received from the Federal government through the State. Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenues, where asset recognition criteria have been met, but for which revenue recognition criteria have not been met, are reported as a deferred inflow of resources.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary fund and fiduciary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

#### d. Interfund Eliminations and Reclassifications:

#### Governmental-wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified in order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns, except for the net residual amounts due between governmental and business-type activities, which are presented as Internal Balances, if any.

#### e. Capital Assets:

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

#### Government-wide Financial Statements:

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant and which extend the useful life of a capital asset are also capitalized.

The total June 30, 2022 balance of capital assets for governmental activities includes approximately 18% for which the costs were determined by estimates of the original costs. The total June 30, 2022 balance of capital assets for business-type activities are all valued at original cost. These estimated original costs were established by appraisals or deflated current replacement cost as determined for the School District by the Valuation Advisory Group, Inc.

For governmental activities capital assets, construction period interest is not capitalized in accordance with USGAAP. For capital assets used in business-type activities/proprietary fund's operations, construction period interest is not capitalized in accordance with USGAAP.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Accumulated depreciation is reported on the government-wide Statement of Net Position and on the proprietary fund's Statement of Net Position.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide financial statements and proprietary funds are as follows:

	oitalization hreshold	Depreciation <u>Method</u>	Estimated <u>Useful Life</u>
Land	\$ -	N/A	N/A
Buildings	\$ 50,000	Straight-line	50-100 years
Improvements Other than Buildings	\$ 10,000	Straight-line	15-25 years
Machinery and Equipment			
(Governmental Funds)	\$ 5,000	Straight-line	5-20 years
Machinery and Equipment			
(Enterprise Funds)	\$ 1,500	Straight-line	20 years

Land is an inexhaustible capital asset and is not depreciated.

#### Fund Financial Statements:

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide financial statements.

#### f. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities primarily consist of capital outlay certificates payable.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund financial statements as in the government-wide statements.

#### g. Program Revenues:

In the government-wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the School District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories as follows:

- 1. Charges for services These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
- 2. Program-specific operating grants and contributions These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
- Program-specific capital grants and contributions These arise from mandatory and voluntary nonexchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

#### h. Deferred Inflows and Deferred Outflows of Resources:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

#### i. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

### j. Cash and Cash Equivalents:

The School District pools its cash resources for depositing and investing purposes. Accordingly, the enterprise funds have access to their cash resources on demand. Accordingly, all reported enterprise fund deposit and investment balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

#### k. Equity Classifications:

Government-wide Financial Statements:

Equity is classified as net position and is displayed in three components:

- Net investment in capital assets Consists of capital assets, including restricted capital assets, net
  of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds,
  mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or
  improvement of those assets.
- 2. Restricted net position Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- 3. Unrestricted net position All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

#### Fund Financial Statements:

Governmental fund equity is classified as fund balance, and is distinguished between Nonspendable, Restricted, Committed, Assigned, or Unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity (except for Agency Funds, which have no fund equity) is reported as net position held in trust for other purposes.

#### I. Application of Net Position:

It is the School District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### m. Fund Balance Classification Policies and Procedures:

In accordance with Governmental Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the School District classifies governmental fund balances as follows:

Nonspendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

<u>Restricted</u> – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

<u>Committed</u> – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority, which is the School Board, and does not lapse at year-end.

<u>Assigned</u> – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the School Board.

<u>Unassigned</u> – includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The School District uses restricted/committed amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the School District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The School District does not have a formal minimum fund balance policy.

#### n. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

# 2. DEPOSITS AND INVESTMENTS FAIR VALUE MEASUREMENT, CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits – The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments – In general, SDCL 4-5-6 permits school district funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

As of June 30, 2022, the School District did not have any investments.

#### **Credit Risk**

State law limits eligible investments for the School District, as discussed above. The School District has no investment policy that would further limit its investment choices.

#### **Custodial Credit Risk - Deposits**

The risk that, in the event of a depository failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. As of June 30, 2022, the School District's deposits in financial institutions were exposed to custodial credit risk as follows:

Depository Name	% Uncollateralized	At-Risk Amount
DNB National Bank	3.51%	\$587,971.97

#### Interest Rate Risk

The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### **Assignment of Investment Income**

State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The School District's policy is to credit all income from deposits and investments to the fund making the investment.

#### RECEIVABLES AND PAYABLES.

Receivables and payables are not aggregated in these financial statements. The School District expects all receivables to be collected within one year. Appropriate allowances for estimated uncollectibles have not been established.

#### 4. INVENTORY

Inventory held for consumption is stated at cost.

Inventory for resale is stated at the lower of cost or market. The cost valuation method is first in, first out (FIFO). Donated commodities are valued at estimated market value based on the USDA price list at date of receipt.

In the government-wide financial statements, inventory items for governmental activities are recorded as expenses at the time of purchase, and inventory items for business-type activities are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

In the governmental fund financial statements, inventory items are recorded as expenses at the time of purchase. In the proprietary funds financial statements, inventory items are initially recorded as assets and charged to expense as they are consumed.

#### 5. PROPERTY TAXES

Property taxes are levied on or before each October 1, attach as an enforceable lien on property, and become due and payable as of the following January 1, and are payable in two installments on or before the following April 30 and October 31. The county bills and collects the School District's taxes and remits them to the School District.

School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations. Revenue related to current year property taxes receivable which is not intended to be used to finance the current year's appropriations and therefore are not susceptible to accrual has been reported as deferred inflows of resources-property taxes levied for future period in both the fund financial statements and the government-wide financial statements. Additionally, in the fund financial statements, revenue from property taxes may be limited by any amount not collected during the current fiscal period or within the "availability period."

#### 6. CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2022 is as follows:

	Balance 7/1/20 Increases		Decreases	Balance 6/30/22
Governmental Activities:	_			
Capital assets, not being depreciated:				
Land	\$ 101,083.45	\$ -	\$ -	\$ 101,083.45
Construction Work in Progress		853,333.72		853,333.72
Total	101,083.45	853,333.72	-	954,417.17

Depreciation expense for the year ended June 30, 2021 was charged to functions as follows:

Business-Type Activities:

Food Service \$777.92
Total depreciation expense – business-type activities \$777.92

Construction work in progress at June 30, 2022 is composed of the following:

		Expended		Required
	Project	Thru		Future
Project Name	Authorization	6/30/22	Committed	<u>Financing</u>
School Additions & Remodeling	\$13,643,690	\$ 335,325	\$9,143,634	<u>\$4,164,731</u>

#### 7. LONG-TERM LIABILITIES

A summary of the changes in long-term liabilities for the year ended June 30, 2022 is as follows:

	Beginning Balance 7/1/20	Additions	Deletions	Ending Balance 6/30/22	Due Within One Year
Governmental Activities: Capital Outlay					
Certificates  Total Governmental	\$ -	\$ 9,955,000.00	\$ 430,000.00	\$ 9,525,000.00	\$
Activities	<u>\$</u>	\$10,012,426.72	\$ 458,716.36	\$ 9,553,710,36	\$ 14,356.68

Liabilities payable at June 30, 2022 are comprised of the following:

#### Governmental Activities:

Capital Outlay Certificates:

Limited Tax General Obligation Certificates, Series 2022; original amount of \$9,955,000; maturing August 1, 2041; interest rates from 1.00% to 3.00% depending on the length of time to maturity of the individual certificates; callable on or after August 1, 2023; payable by the Capital Outlay Fund

\$9,525,000.00

#### Governmental Activities:

The annual debt service requirements to maturity for all debt outstanding as of June 30, 2022 are as follows:

	0 11 10 1		
	Capital Out	tiay (	<u>Jertificates</u>
	<u>Principal</u>		<u>Interest</u>
\$	-	\$	101,091.25
	425,000.00		195,807.50

		\$ 2	202,675.00 2,333,722.50
		\$ Principal \$ - 425,000.00 430,000.00 435,000.00	\$ - \$ 425,000.00 430,000.00 435,000.00 440,000.00 2,335,000.00 2,575,000.00 2,885,000.00

#### 8. OPERATING LEASE

On May 14, 2020, the School District entered into a 48 month lease for four Toshiba e-studio copiers. The monthly lease payment is \$1,196.39 beginning July 24, 2020 with the final payment due June 24, 2024. The School District is also charged an annual maintenance fee of \$.006 per black & white copy over 70,833 copies and \$.042 per color copy over 6,250 copies. During the years ended June 30, 2022 and 2021, the total payments paid by the Capital Outlay Fund were \$14,356.68 and \$14,359.68, respectively.

The following are the minimum payments required for the existing operating lease:

Year	
Ending	
June 30,	<u>Amount</u>
2023	\$14,356.68
2024	14,353.68
	<u>\$28,710.36</u>

#### 9. RESTRICTED NET POSITION

The following table shows the net position restricted for other purposes as shown on the Statement of Net Position:

Fund	Restricted By	Amount
Capital Projects	Law	\$ 41,385.70
Capital Outlay	Law	5,333,718.21
Special Education	Law	524,633.70
SDRS Pension	GASB	427,082.67
NPIP Insurance Reserve	Contractual Agreement	40,546.00
Total Restricted Net Position		<u>\$6,367,366.28</u>

#### 10. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2022 were as follows:

	Transfers To:
Transfers From:	Capital Projects Fund
Capital Outlay Fund	<u>\$ 9,911,768.20</u>

The School District transferred the proceeds from the issuance of the capital outlay certificates for the payment of construction costs relating to the school addition.

#### 11. PENSION PLAN

#### Plan Information:

All employees, working more than 20 hours per week during the school year, participate in the South Dakota Retirement System (SDRS), a cost sharing, multiple employer defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in South Dakota Codified Law (SDCL) 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <a href="http://sdrs.sd.gov/publications.aspx">http://sdrs.sd.gov/publications.aspx</a> or by writing to the SDRS, PO Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

#### **Benefits Provided:**

SDRS has three different classes of employees, Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirements that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

#### **Contributions:**

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The School District's share of contributions to the SDRS for the fiscal years ended June 30, 2022, 2021, and 2020 were \$181,680.96, \$172,973.67, and \$162,632.38, respectively, equal to the required contributions each year.

#### Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:

At June 30, 2021, SDRS is 105.52% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of South Dakota Retirement System, for the School District as of June 30, 2022 are as follows:

Proportionate share of pension liability	\$17,615,559.36
Less proportionate share of net position restricted for pension benefits	18,588,453.02
Proportionate share of net pension asset	<u>(\$ 972,893.66)</u>

At June 30 2022, the School District reported an asset of \$972,893.66 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2021 and the total pension liability used to calculate the net pension asset was based on a projection of the School District's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2021, the School District's proportion was .1270380%, which is an increase of .0035341% from its proportion measured as of June 30, 2020.

For the years ended June 30, 2022 and 2021, the School District recognized a reduction of pension expense of \$264,424.78 and pension expense of \$236,918.17, respectively. At June 30, 2022 the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience.	\$ 34,929.42	\$ 2,550.72
Changes in assumption.	1,118,817.80	487,211.09
Net difference between projected and actual earnings on pension plan investments.  Changes in proportion and difference	-	1,389,798.06
between District contributions and proportionate share of contributions.	3,753.67	5,432.97
School District contributions subsequent to the measurement date.  TOTAL	181,680.96 \$ 1,339,181.85	<u> </u>

\$181,680.96 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year	
Ended	
June 30,	
2023	\$ (181,117.02)
2024	(121,852.59)
2025	(33,550.03)
2026	(390,972.31)
TOTAL	\$ (727,491.95)

#### **Actuarial Assumptions**:

The total pension liability (asset) in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary Increases	Graded by years of service, from 6.50% at entry to 3.00% after 25 years of
	service
Discount Rate	6.50% net of plan investment expense. This is composed of an average inflation rate of 2.25% and real returns of 4.25%
Future COLAs	2.25%

Mortality rates were based on 97% of the RP-2014 Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Global Equity	58.0%	4.3%
Fixed Income	30.0%	1.6%
Real Estate	10.0%	4.6%
Cash	2.0%	0.9%
Total	100%	

#### **Discount Rate:**

The discount rate used to measure the total pension liability (asset) was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

#### Sensitivity of liability (asset) to changes in the discount rate:

The following presents the School District's proportionate share of net pension asset using the discount rate of 6.50%, as well as what the School District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

		Current	
	1%	Discount	1%
	<u>Decrease</u>	Rate	<u>Increase</u>
School District's proportionate share			
of the net pension liability (asset)	\$1,575,356.88	(\$972,893.66)	(\$3,041,479.92)

#### Pension Plan Fiduciary Net Position:

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

#### 12. OTHER POST EMPLOYMENT BENEFITS (OPEB)

#### Plan Description:

The School District administers a single-employer defined benefit plan which provides medical and prescription drug benefits for current employees, eligible retirees, and their immediate families as permitted by South Dakota Codified Law 6-1-16. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Individuals who are employed by the School District and are eligible to participate in the group health plan are eligible to continue healthcare benefits upon retirement. Retirees under age 65 pay the same premium for the medical and prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

#### **Funding Policy:**

The School District funds the other post-employment benefits on a pay-as-you-go basis. Because the School District does not use a trust fund to administer the financing of other post-employment benefits, no separate financial statements are required.

#### **Employees Covered by Benefit Terms:**

As of June 30, 2022, there were a total of 90 employees covered by the benefit terms. This includes 6 retirees currently receiving benefit payments and 84 active employees.

#### **Total OPEB Liability:**

The School District's total OPEB liability of \$255,486 was measured as of June 30, 2021 and was determined by an actuarial valuation as of that date.

#### **Actuarial Methods and Assumptions:**

The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, using the entry age normal actuarial cost method,

Inflation 2.25%
Salary Increases Graded by years of service, from 6.50% at entry to 3.00% after 25 years of service
Discount Rate 2.16%
Healthcare Cost Trend Rate 5.7% initial rate decreasing annually to an ultimate rate of 3.7%

Retirees Share of Benefit-Related Cost 100% of projected health insurance for retirees

The discount rate used to measure the total OPEB liability was 2.16% which is based on the 20-year Bond Buyer GO Index.

Mortality rates were based on 97% of the RP-2014 Mortality Table, white collar table for females and total dataset for males, adjusted to 2006 and projected generationally with MP-2021. Mortality rates for disabled members were based on the RP-2014 Disabled Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2021.

The plan has not had a formal actuarial experience study performed.

#### **Changes in the Total OPEB Liability:**

	Total OPEB <u>Liability</u>
Total OPEB Liability, Beginning of Year Changes for the Year:	\$ 232,371
Service Cost	22,147
Interest Cost	5,338
Effect of Economic/Demographic Gains or Losses	8,109
Effect of Assumptions Changes or Inputs	13,502
Benefit Payments	<u>(25,981</u> )
	<u>\$ 255,486</u>

#### Sensitivity of the District's Total OPEB Liability to Changes in the Discount Rate:

The following presents the School District's total OPEB liability, as well as what the School District's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.16%) or 1-percentage point higher (3.16%) than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	(1.16%)	(2.16%)	(3.16%)
Total OPEB Liability	\$285,851	\$255,486	\$230,033

#### Sensitivity of the District's Total OPEB Liability to Changes in the Current Healthcare Cost Trend Rates:

The following presents the School District's total OPEB liability, as well as what the School District's total OPEB liability would be if it were calculated using a current healthcare cost trend rates that is 1-percentage point lower or 1-percentage point higher than the current trend rate:

	1% Decrease	Discount Rate	1% Increase
Total OPEB Liability	\$222,739	\$255,486	\$296,210

For the years ended June 30, 2022 and 2021, the School District recognized OPEB expense of \$22,957 and \$18,723, respectively. At June 30, 2022, the School District reported \$37,426 of deferred outflows of resources related to OPEB and \$52,495 of deferred inflows of resources related to OPEB from economic/demographic (gains) or losses and changes in assumptions or inputs.

The deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30,		<u>Amount</u>
2023		(\$4,528)
2024		(4,528)
2025		(4,528)
2026		(3,556)
2027		(2,202)
Thereafter	•	4,273

#### 13. JOINT VENTURES

The School District participates in the Northeast Educational Services Cooperative, a cooperative service unit (Co-op) formed for the purpose of providing educational services to the member school districts.

The members of the Co-op and their relative percentage participation in the Co-op for the year ended June 30, 2021 are as follows:

Arlington School District No. 38-1	3.36%
Britton-Hecla School District No. 45-4	5.50%
Castlewood School District No. 28-1	3.95%
Clark School District No. 12-2	5.46%
De Smet School District No. 38-2	3.64%
Deubrook School District No. 5-6	4.68%
Deuel School District No. 19-4	6.62%
Elkton School District No. 5-3	4.31%
Enemy Swim Day School	2.06%
Estelline School District No. 28-2	3.48%
Florence School District No. 14-1	3.57%
Hamlin School District No. 28-3	11.10%
Henry School District No. 14-2	2.09%
Iroquois School District No. 2-3	2.74%
Lake Preston School District No. 38-3	2.27%
Oldham-Ramona School District No. 39-5	2.15%
Rosholt School District No. 54-4	3.09%
Sioux Valley School District No. 5-5	8.80%

Summit School District No. 54-6	2.26%
Waubay School District No. 18-3	2.23%
Waverly School District No. 14-5	3.31%
Webster School District No. 18-4	6.83%
Willow Lake School District No. 12-3	3.52%
Wilmot School District No. 54-7	2.97%

The Co-op's governing board is composed of one representative from each member school district, who is a school board member of the member school district. The board is responsible for adopting the Co-op's budget and setting service fees at a level adequate to fund the adopted budget.

The School District retains no equity in the net position of the joint venture, but does have a responsibility to fund deficits of the joint venture in proportion to the relative participation described above.

Separate financial statements for this joint venture are available from the Northeast Educational Services Cooperative.

At June 30, 2021, this joint venture had total assets of \$2,117,558.94, deferred outflows of resources of \$828,193.14, total liabilities of \$558,018.82, deferred inflows of resources of \$665,473.24, and net position of \$1,722,260.02. The audited financial information for the year ended June 30, 2022 was not available.

#### 14. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2022, the School District managed its risks as follows:

#### Employee Health Insurance:

The School District participates, with several other educational units and related organizations in South Dakota, in the Northern Plains Insurance Pool (Pool). The Pool is a Joint Power Authority authorized by South Dakota Codified Law (SDCL) 1-24 et. Seq., SDCL13-10-3 and SDCL 8-2-16. The Pool provides eligible employees group health and welfare plans that are jointly sponsored by the governmental units in the Pool. The School District pays a monthly premium to the Pool to provide health insurance coverage for its employees. The Pool has service agreements with Sanford Health Plan and South Dakota State Medical Holding Company, Inc., d/b/a Dakotacare and its subsidiary Dakota Administrative Services who are engaged to provide health claims administration services. The Pool utilizes a reinsurance agreement to limit maximum loss and minimize on larger risks, all members are covered under a reinsurance agreement with a \$225,000 deductible.

The coverage includes the option of three different plans with a deductible from \$1,500 to \$4,000.

The School District does not carry additional health insurance coverage to pay claims in excess of this upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

The School District has a deposit with the Northern Plains Insurance Pool of \$40,546. As of June 30, 2022, 100% of the deposit was vested for refund if the School District would terminate their membership.

#### Liability Insurance:

The School District purchases liability insurance for risks related to torts; theft or damage to property; and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

#### Worker's Compensation:

The School District participates, with several other educational units and related organizations in South Dakota, in the Associated School Boards of South Dakota Workers' Compensation Fund Pool which provides workers' compensation insurance coverage for participating members of the pool. The objective of the Fund is to formulate, develop, and administer, on behalf of the member organizations, a program of worker's compensation coverage, to obtain lower costs for that coverage, and to develop a comprehensive loss control program. The School District's responsibility is to initiate and maintain a safety program to give its employees safe and sanitary working conditions and to promptly report to and cooperate with the Fund to resolve any worker's compensation claims. The School District pays an annual premium to provide worker's compensation coverage for its employees, under a retrospectively rated policy and the premiums are accrued based on the ultimate cost of the experience to date of the Fund members. The School District may also be responsible for additional assessments in the event the pool is determined by its board of trustees to have inadequate reserves to satisfy current obligations or judgments. Additional assessments, if any, are to be determined on a prorated basis based upon each participant's percentage of contribution in relation to the total contributions to the pool of all participants for the year in which the shortfall occurs. The pool provides loss coverage to all participants through pool retained risk retention and through insurance coverage purchased by the pool in excess of the retained risk. The pool pays the first \$500,000 of any claim per individual. The pool has reinsurance which covers up to \$1,000,000 per individual per incident.

The School District does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

#### **Unemployment Benefits**:

The School District has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

The School District has assigned fund balance in the General Fund in the amount of \$17,707.00 for the payment of future unemployment benefits.

During the year ended June 30, 2021, one claim was filed for unemployment benefits. This claim resulted in the payment of benefits in the amount of \$920.55. At June 30, 2022, no claims had been filed and were outstanding. It is not anticipated that any additional claims for unemployment benefits will be filed in the next fiscal year.

#### 15. LITIGATION

At June 30, 2022, the School District was not involved in any litigation.

#### 16. VIOLATIONS OF FINANCE-RELATED LEGAL AND CONTRACTUAL PROVISIONS

The School District is prohibited by statute from spending in excess of appropriated amounts at the fund level. The following represents the significant overdrafts of the expenditures compared to appropriations:

	Year Ended 6/30/22	Year Ended 6/30/21
Capital Projects Fund	\$249,933.72	\$ -
Food Service Fund	\$ 23,426.93	\$ 25,599.46

Management plans to monitor the actual expenditures to the amounts appropriated for each fund on a regular basis by reviewing the Revenue and Expenditure Reports to ensure that the actual expenditures are not in excess of appropriated amounts at the fund level. If it is determined that sufficient amounts have not been budgeted, the school board will adopt supplemental budgets when funds are available as allowed by State statute.

# DEUEL SCHOOL DISTRICT NO. 19-4 NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY COMPARISON SCHEDULES June 30, 2022 and 2021

#### 1. BASIS OF PRESENTATION

The Budgetary Comparison Schedules have been prepared on the budgetary basis of accounting. The Budgetary Comparison Schedules present capital outlay expenditures within each function while the financial statements prepared in conformity with USGAAP present capital outlay expenditures as a separate function.

#### 2. BUDGETS AND BUDGETARY ACCOUNTING

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to the first regular board meeting in May of each year the school board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
- 2. The proposed budget is considered by the school board at the first regular meeting held in the month of May of each year.
- 3. The proposed budget is published for public review no later than July 15 each year.
- 4. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
- 5. Before October 1 of each year, the school board must approve the budget for the ensuing fiscal year for each fund, except fiduciary funds.
- 6. After adoption by the school board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in number 8.
- 7. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5 percent of the total school district budget and may be transferred by resolution of the school board to any other budget category, except for capital outlay, that is deemed insufficient during the year. No amount of expenditures may be charged directly to the contingency line item in the budget.
- 8. If it is determined during the year that sufficient amounts have not been budgeted, state statute allows adoption of supplemental budgets when moneys are available to increase legal spending authority.
- Unexpended appropriations lapse at year-end unless encumbered by resolution of the school board.
- 10. Formal budgetary integration is employed as a management control device during the year for the General Fund and each major special revenue fund.
- 11. Budgets for the General Fund and each major special revenue fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).

# DEUEL SCHOOL DISTRICT NO. 19-4 NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION PENSION SCHEDULES June 30, 2022 and 2021

#### **Changes from Prior Valuation**

The June 30, 2021 Actuarial Valuation reflects no changes in actuarial methods from the June 30, 2020 Actuarial Valuation. One change in actuarial assumptions and one plan provision change are reflected and described below.

The details of the changes since the last valuation are as follows:

#### **Benefit Provision Changes**

Legislation enacted in 2021 reduced the minimum SDRS COLA from 0.5% to 0%. This change will impact the SDRS COLA only when inflation is very low or when a restricted maximum COLA of 0.5% is not affordable. The change had no impact on the current assets or liabilities of SDRS.

#### **Actuarial Assumption Changes**

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0% (0.5% prior to 2021) and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2020 and the July 2021 SDRS COLA was limited to a restricted maximum of 1.41%. As of June 30, 2021, the FVFR assuming the COLA is equal to the baseline COLA assumption is greater than 100%. The July 2022 SDRS COLA will equal inflation, between 0% and 3.5%. For the June 30, 2020 Actuarial Valuation, future COLAs were assumed to equal the restricted maximum COLA of 1.41%. For this June 30, 2021 Actuarial Valuation, future COLAs are assumed to equal the baseline COLA assumption of 2.25%.

The change in the COLA assumption increased the Actuarial Accrued Liability by \$1,135 million, or 8.9% of the Actuarial Accrued Liability based on the 1.41% restricted maximum COLA.

Actuarial assumptions are reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes approved by the Board of Trustees are anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

#### **Actuarial Method Changes**

No changes in actuarial methods were made since the prior valuation.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

School Board Deuel School District No. 19-4 Deuel County, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Deuel School District No. 19-4, South Dakota (School District), as of June 30, 2022 and for each of the years in the two year period then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 8, 2023. The report on the aggregate remaining fund information was qualified because the School District did not adopt Governmental Accounting Standards Board (GASB) Statement No. 84 *Fiduciary Activities*.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Current Audit Findings as items 2022-01, 2022-02, 2022-03 and 2022-04.

Members of the American Institute and South Dakota Society of Certified Public Accountants

#### School District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the School District's responses to the findings identified in our audit. The School District's responses to the findings identified in our audit are described in the accompanying Schedule of Current Audit Findings. The School District's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing* Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

#### DEUEL SCHOOL DISTRICT NO. 19-4 SCHEDULE OF PRIOR AUDIT FINDINGS June 30, 2022

#### **PRIOR AUDIT FINDINGS**

The prior audit report contained no written audit findings.

#### DEUEL SCHOOL DISTRICT NO. 19-4 SCHEDULE OF CURRENT AUDIT FINDINGS June 30, 2022

#### **CURRENT AUDIT FINDINGS**

#### 2022-01

- Finding: The School District did not advertise for competitive bids for public improvements involving expenditures of \$100,000 or more as required by SDCL 5-18A-14.
- Analysis: SDCL 5-18A-14 requires the governing body advertise for competitive bids contracts for public improvements involving expenditures of \$100,000 or more; or contracts for the purchase of supplies (other than equipment) or services, other than professional services, involving expenditures of \$25,000 or more & equipment contracts involving expenditures of \$50,000 or more.
- Recommendation: We recommend that the School District advertise for competitive bids for all contracts in amounts required by SDCL 5-18A-14.
- Response: The School District will take measures to ensure that they advertise for competitive bids for all contracts as required by SDCL 5-18A-14.

#### 2022-02

- Finding: The changes from the proposed budget to the final budget were not published in the board minutes within 30 days after the final budget was adopted as required by SDCL 13-11-2.
- Analysis: SDCL 13-11-2 requires the changes from the proposed budget to the final budget be published in the board minutes within 30 days after the final budget was adopted.
- Recommendation: We recommend that the School District take measures to ensure the changes from the proposed budget to the final budget are published in the board minutes within 30 days after the final budget was adopted as required by SDCL 13-11-2.
- Response: The School District will take measures to ensure that the changes from the proposed budget to the final budget are published in the board minutes within 30 days after the final budget is adopted.

#### 2022-03

- Finding: The School District purchased equipment greater than \$1,000 from the General Fund which is contrary to SDCL 13-16-6.
- Analysis: SDCL 13-16-6 requires the lease or purchase of equipment greater than \$1,000 be made from the Capital Outlay Fund.
- Recommendation: We recommend that the lease or purchase of equipment greater than \$1,000 be made from the Capital Outlay Fund as required by SDCL 13-16-6. We also recommend that the Capital Outlay Fund reimburse the General Fund for the equipment purchased during the year.
- Response: The School District will take measures to ensure that the lease or purchase of equipment greater than \$1,000 be made from the Capital Outlay Fund as required by SDCL 13-16-6. The Capital Outlay Fund will reimburse the General Fund for the equipment purchased.

#### DEUEL SCHOOL DISTRICT NO. 19-4 SCHEDULE OF CURRENT AUDIT FINDINGS June 30, 2022

#### 2022-04

- Finding: The total amount expended in the Capital Projects Fund and Food Service Fund was in excess of the total amount appropriated which is contrary to SDCL 13-11-2.
- Analysis: SDCL 13-11-2 requires the school district not exceed the budgeted appropriations total of each fund, except for trust and custodial funds, for the school fiscal year.
- Recommendation: We recommend that the School District refrain from spending in excess of the amounts appropriated for each fund as required by SDCL 13-11-2.
- Response: Management plans to monitor the actual expenditures to the amounts appropriated for each fund on a regular basis by reviewing the Revenue and Expenditure Reports to ensure that the actual expenditures are not in excess of appropriated amounts at the fund level. If it is determined that sufficient amounts have not been budgeted, the school board will adopt supplemental budgets when funds are available as allowed by State statute.
