**Independent Auditor’s Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

To the City Council  
City of De Smet, South Dakota

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of De Smet as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City of De Smet’s basic financial statements and have issued our report thereon dated March 25, 2024. Our report includes a reference to other auditors who audited the financial statements of Housing and Redevelopment Commission of the City of De Smet as described in our report on the City of De Smet financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City’s financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified certain deficiencies in internal control, described in the accompanying Schedule of Current Audit Findings and Questioned Costs as items 2021-001, and 2021-002 that we consider to be a material weaknesses.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of De Smet's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **City's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the City's response to the findings identified in our audit. The City's response to the findings identified in our audit are described in the accompanying Schedule of Current Audit Findings and Questioned Costs. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record, and its distribution is not limited.

A handwritten signature in black ink that reads "CIO of LLC". The signature is written in a cursive, somewhat stylized font.

De Smet, South Dakota  
March 25, 2024

**Independent Auditor’s Report on Compliance for each Major Program and on Internal Control over Compliance Required by the Uniform Guidance**

To the City Council  
City of De Smet, South Dakota

**Report on Compliance for Each Major Federal Program**

**Opinion on Each Major Federal Program**

We have audited City of De Smet’s compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of City of De Smet’s major federal programs for the year ended December 31, 2021. City of De Smet’s major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City of De Smet complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

**Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of City of De Smet and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of City of De Smet ’s compliance with the compliance requirements referred to above.

**Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to City of De Smet ’s federal programs.

## **Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on City of De Smet's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about City of De Smet's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding City of De Smet's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of City of De Smet's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of City of De Smet's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control Over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance; such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes. As required by South Dakota Codified Law 4-11-11, this report and our report on compliance for each major federal program are matters of public record and their distribution is not limited.

**Section II – Financial Statement Findings**

Finding 2021-001

A material weakness in internal control was disclosed by our audit for lack of proper segregation of duties for revenues and expenditures.

Criteria: The internal control system of a City can help assist in increased reliability of reported financial data, compliance with laws and regulations, and decreased potential for the loss of public records.

Condition: The City has a limited number of office personnel and, accordingly, does not have adequate accounting controls in the revenue, expenditure, and payroll functions because of a lack of segregation of duties.

Cause: The limited size of the City's staff and resources cause the inability to maintain proper segregation of duties.

Effect: As a result, there is increased likelihood that errors could occur and not be detected in a timely manner by employees in the ordinary course of performing their duties.

Auditor's Recommendation: We recommend a high level of awareness be maintained by management to assist in preventing, detecting, or correcting matters that may arise due to this internal control weakness and intend to provide continuous monitoring in an effort to prevent, detect, or correct matters that may result.

View of Management: Management agrees with the finding. A response can be found in the Corrective Action Plan.

Finding 2021-002

A material weakness in internal control over Year-end Closing Procedures Including Preparation of the Financial Statements was disclosed by our audit .

Criteria: The City's requested the external auditors to assist in the preparation of the financial statements, related footnotes, and schedule of federal awards for the year ended December 31, 2021. As part of the financial statement preparation process, at times we propose material audit adjustments that are not identified as a result of the City's existing internal controls and, therefore, could result in a misstatement to the City's financial statements.

Condition: The City does not have adequate staff trained to prepare the financial statements and footnotes that are materially correct.

Cause: The City's internal control structure should be designed to provide for the preparation of the financial statements, footnotes, and the SEFA, which includes having an adequate system for recording and processing entries material to the financial statements being audited in accordance with generally accepted accounting principles.

**City of De Smet**  
Schedule of Prior and Current Audit Findings and Questioned Costs (Continued)  
For the Year Ended December 31, 2021

---

Finding 2021-002 (Continued)

Effect: This condition may affect the City's ability to District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Auditor's Recommendation: This circumstance is not unusual in an organization of this size. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

View of Management: Management agrees with the finding. A response can be found in the Corrective Action Plan.

**Section III – Federal Award Findings and Questioned Costs**

There are no findings or questioned costs relating to federal award programs which are required to be reported in accordance with 2 CFR 200.516(a).

## Corrective Action Plan (Unaudited)

City of De Smet respectfully submits the following corrective action plan for the year ended December 31, 2021.

Name and address of independent public accounting firm:

ELO Prof. LLC  
PO Box 951  
Huron, SD 57350

### Findings – Financial Statement Audit

Finding 2021-001 – Internal Control over Lack of Proper Segregation of Duties for Revenues, Expenditures, and Payroll

School District's Response: We agree with the finding.

View of Responsible Officials and Corrective Action Plan:

The City understands the risk associated with the small staff size within the finance function of the City. Management and those charged with governance accept the degree of risk associated with the Finance Officer performing entries and reconciliations without proper oversight, because of cost or other considerations.

Finding 2021-02 - Internal Control over Year-end Closing Procedures Including Preparation of the Financial Statements

School District's Response: We agree with the finding.

View of Responsible Officials and Corrective Action Plan:

The City has for many years utilized the audit firm for the preparation of the financial statements in coordination with the annual City audit. City management personnel have been responsible for oversight of those services provided. The City has designated an individual to work directly with the City's auditing firm in the preparation of the financial statements, footnotes, and SEFA. The City understands that this may continue to be a finding in future audits.

Name of Responsible Person: Tracey Larson, Finance Officer

Name of Department Contact: Tracey Larson, Finance Officer

Anticipated Completion Date: Ongoing for 2021-001 and 2021-002, FY24 for 2021-003

## Independent Auditor's Report

To the City Council  
City of De Smet, South Dakota

### Report on the Audit of the Financial Statements

#### Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of the City of De Smet as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the Table of Contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of the City of De Smet as of December 31, 2021, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Housing and Redevelopment Commission of the City of De Smet, which represent 100 percent, 100 percent, and 100 percent, respectively, of the assets, net position, and revenues of the component unit as of June 30, 2021. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for component unit, is based solely on the report of the other auditors.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of De Smet and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Responsibility of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of De Smet's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in financial statements.
- Obtain an understanding of City of De Smet's internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of City of De Smet's internal control over compliance. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of De Smet's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information:**

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedules, the Schedule of Changes in Total OPEB Liability, Schedule of the City's Proportionate Share of the Net Pension Liability (Asset) (SDRS), and Schedule of the City's Contributions (SDRS) be presented to supplement the basic financial statements.

Such information is the responsibility of management, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The City has omitted the Management's Discussion and Analysis (MD&A) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Schedule of Expenditures of Federal Awards, which is required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2024, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of De Smet's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Handwritten signature in cursive script that reads "CIO of LLC".

 Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position  
 December 31, 2021

---

Total Fund Balances Government Funds \$ 3,507,166

Amounts reported for governmental activities in the statement of net position are different because:

Net pension asset reported in governmental activities is not available financial resource and therefore is not reported in the funds. 109,710

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. 13,606,940

Pension related deferred outflows are components of pension liability (asset) and therefore are not reported in the funds. 141,864

Long-term liabilities, including promissory notes and compensated absences are not due and payable in the current period and therefore are not reported in the funds. (16,062)

Assets such as taxes receivable (delinquent) are not available to pay for current period expenditures and therefore are deferred in the funds. 21,153

Pension related deferred inflows are components of pension liability (asset)/OPEB liability and therefore are not reported in the funds. (212,222)

 Reconciliation Of The Statement Of Revenues, Expenditures, And Changes In Fund Balances  
 To The Statement Of Activities  
 For The Year Ended December 31, 2021

---

Net Change in Fund Balances Total Government Funds \$ 548,623

Amounts reported for governmental activities in the statement of activities are different because:

This amount represents capital asset purchases which are reported as expenditures on the fund financial statements but increase assets on the government wide statements. 824,871

This amount represents the current year depreciation expense reported in the statement of activities which is not reported on the fund financial statements because it does not require the use of current financial resources. (543,090)

Payment of principal on long-term debt is an expenditure in the governmental funds but the payment reduces long-term liabilities in the statement of net assets. 90,496

The fund financial statement governmental fund property tax accruals differ from the government wide statement property tax accruals in the the fund financial statements require the amounts to be "available". 21,153

Governmental funds recognize expenditures for amounts of compensated absences actually paid to employees with current financial resources during the year. Amounts of compensated absences earned by employees are not recognized in the funds. In the statement of activities, expenses for these benefits are recognized when the employees earn leave credits. 3,020

Changes in the pension related deferred outflows/inflows are direct components of pension (asset) and are not reflected in the governmental funds. 36,938

Change in Net Position of Governmental Activities \$ 982,011

**1. Summary of Significant Accounting Policies:**

a. Financial Reporting Entity:

The reporting entity of the City of De Smet (City) consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The City is financially accountable if its Governing Board appoints a voting majority of another organization's governing body and it has the ability to impose its will on that organization, or there is a potential for that organization to provide specific financial benefits to, or impose specific financial burdens on, the City (primary government). The City may also be financially accountable for another organization if that organization is fiscally dependent on the City.

The Housing and Redevelopment Commission of the City of De Smet, South Dakota (Commission) is a proprietary fund-type, discretely presented component unit. The five members of the Commission are appointed by the Mayor with the approval of the Governing Board for five-year staggered terms. The Commission elects its own chairperson and recruits and employs its own management personnel and other workers. The Governing Board, though, retains the statutory authority to approve or deny or otherwise modify the Commission's plans to construct a low-income housing unit, or to issue debt, which gives the Governing Board the ability to impose its will on the Commission. Separately issued financial statements of the Housing and Redevelopment Commission may be obtained from: De Smet Housing and Redevelopment Commission, 408 Calumet Avenue, De Smet, South Dakota 57231. The December 31, 2021 year-end statements are presented in these financial statements.

b. Basis of Presentation:

**Government-Wide Financial Statements:**

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity, except for fiduciary funds. The statements distinguish between governmental and business-type activities and discretely presented component units. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Discretely presented component units are legally separate organizations that meet certain criteria, as described in note 1.a., above, and may be classified as either governmental or business-type activities. See the discussion of individual component units in Note 1.a. above.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements:**

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or it meets the following criteria:

1. Total assets, liabilities, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
2. Total assets, liabilities, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined, or
3. Management has elected to classify one or more governmental or enterprises funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the City financial reporting entity are described below:

**Governmental Funds:**

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is always considered to be a major fund.

Special Revenue Funds – Special revenue funds are used to account for the proceeds of specific revenue sources (other than trusts for individuals, private organizations or other governments, or for major capital projects) that are legally restricted to expenditures for specified purposes.

Liquor, Lodging and Dining Gross Receipts Tax Fund – To account for the collection of a one percent tax on the gross receipts of lodgings, alcoholic beverages, prepared food and admissions which tax shall be used to the purpose of land acquisition, architectural fees, construction costs, payments for civic center, auditorium or athletic facility buildings, including the maintenance, staffing, and operations of such facilities and the promotion and advertising of the city (SDCL 10-52A-2). This fund may be established at the direction of the governing body through local ordinance. This is a major fund.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

Hospital Fund – to account for the related financial activity primarily related to an operational agreement with a regional hospital. This is a major fund.

Library Fund – to account for the library related fines, similar charges, and donations to be used for library purposes. This is a major fund.

Debt Service Funds – Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Tax Increment District No. 1 Debt Service Fund – to account for the accumulation of resources for, and the payment of the debt principal, interest, and related costs associated with a tax incremental district. This is a major fund.

**Proprietary Funds:**

Enterprise Funds – Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met. Governments should apply each of these criteria in the context of the activity's principal revenue sources.

- a. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit – even if that government is not expected to make any payments – is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered payable “solely” from the revenues of the activity.)
- b. Laws or regulation require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- c. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Water Fund – Financed primarily by user charges, this fund accounts for the construction and operation of the municipal waterworks system and related facilities (SDCL 9-47-1). This is a major fund.

Sewer Fund – Financed primarily by user charges, this fund accounts for the construction and operation of the municipal sanitary sewer system and related facilities (SDCL 9-48-2). This is a major fund.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

**Fiduciary Funds:**

Fiduciary funds consist of the following sub-category and are never considered to be major funds.

Custodial Funds – Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. Custodial funds consist of special assessment projects and payroll-related withholdings.

c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe “how” transactions are recorded within the various financial statements. Basis of accounting refers to “when” revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

**Measurement Focus:**

Government-Wide Financial Statements – In the government-wide Statement of Net Position and Statement of Activities, both governmental, business-type and component units activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements – In the fund financial statements, the “current financial resources” measurement focus, and the modified accrual basis of accounting are applied to governmental fund types, while the “economic resources” measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary fund types.

**Basis of Accounting:**

Government-Wide Financial Statements – In the government-wide Statement of Net Position and Statement of Activities, governmental, business-type, and component unit activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets are recorded when earned (usually when the right to receive cash vests); and expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

Fund Financial Statements – All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, are recognized when they become measurable and available. “Available” means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period for the City of De Smet is 30 days. The revenues which are accrued at December 31, 2021 are sales tax, real estate taxes, state shared revenues, and miscellaneous other revenues.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenues, where asset recognition criteria have not been met are reported as a deferred inflow of resources.

Expenditures are generally recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary and fiduciary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Deposits and Investments:

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts with a term to maturity at date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

There are no investments classified in the financial statements.

e. Capital Assets:

Capital assets include land, buildings, improvements other than buildings, furnishings and equipment, construction/development in progress, infrastructure, intangible lease assets, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Infrastructure assets are long-lived capital assets that normally are stationary in nature and normally can be preserved for significantly greater number of years than most capital assets.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in government-wide or fund financial statements.

**Government-Wide Financial Statements:**

Capital assets are recorded at historical cost or estimated cost where actual historical cost could not be determined. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant, and which extend the useful life of a capital asset are also capitalized.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

The total December 31, 2021 balance of governmental activities capital assets includes approximately 34% for which the costs were determined by estimates of the original costs. The total December 31, 2021 balance of business-type capital assets includes approximately 37% for which costs were determined by estimates of the original costs. These estimated original costs were established by appraisals or deflated current replacement cost.

Infrastructure Assets used in general government operations, consisting of certain improvements other than buildings, including roads, bridges, sidewalks, drainage systems, and lighting systems, acquired prior to January 1, 2004 were not required to be capitalized by the City. Infrastructure assets acquired since January 1, 2004 are recorded at cost and classified as "Improvements Other than Buildings".

For governmental activities and business-type/proprietary fund Capital Assets, construction-period interest is not capitalized, in accordance with USGAAP.

Depreciation/Amortization of all exhaustible capital assets is recorded as an allocated expense in the government-wide Statement of Activities, except for that portion related to common use assets for which allocation would be unduly complex, and which is reported as Unallocated Depreciation/Amortization, with net capital assets reflected in the Statement of Net Position. Accumulated depreciation/amortization is reported on the government-wide Statement of Net Position and on the proprietary fund's Statement of Net Position.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide financial statements and proprietary funds are as follows:

	<b>Capitalization Threshold</b>	<b>Depreciation Method</b>	<b>Estimated Useful Life</b>
Land	All	-- *	--
Buildings	\$ 25,000	straight-line	25-100 years
Improvements other than buildings	\$ 25,000	straight-line	5-50 years
Machinery and equipment	\$ 4,000	straight-line	5-60 years
Utility improvements	\$ 10,000	straight-line	5-20 years

\*Land is an inexhaustible capital asset and is not depreciated.

**Fund Financial Statements:**

In the fund financial statements, capital assets used in governmental fund operations are accounted for as expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide financial statements.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

f. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide financial statements. The long-term liabilities primarily consist of revenue bonds, promissory notes, compensated absences..

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide financial statements.

g. Leases:

The City is a lessor for an operating lease to use the Hospital and Clinic buildings to Avera Queen of Peace for a monthly payment. The agreements can be cancelled by either party upon 180-day notice. No lease payments receivable or deferred inflow of resources has been accrued.

h. Program Revenues:

Program revenues derive directly from the program itself or from parties other than the City's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

1. Charges for services – These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
2. Program-specific operating grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations or individuals that are restricted for use in a particular program.
3. Program-specific capital grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations or individuals that are restricted for the acquisition of capital assets for use in a particular program.

i. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Revenues, Expenses and Changes in Net Position, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

j. Deferred Inflows and Deferred Outflows of Resources:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

k. Cash and Cash Equivalents:

The City pools the cash resources of its funds for cash management purposes. The proprietary funds essentially have access to the entire amount of their cash resources on demand. Accordingly, each proprietary fund's equity in the cash management pool is considered to be cash and cash equivalents for the purpose of the Statement of Cash Flows.

l. Equity Classifications:

**Government-Wide Financial Statements:**

Equity is classified as net position and is displayed in three components:

1. Net Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted Net Position – Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted Net Position – All other net positions that do not meet the definition of “restricted” or “net investment in capital assets.”

**Fund Financial Statements:**

Governmental fund equity is classified as fund balance, and may distinguish between “Nonspendable,” “Restricted,” “Committed,” “Assigned,” and “Unassigned” components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity is reported as Net Position – Restricted.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**1. Summary of Significant Accounting Policies: (Continued)**

m. Application of Net Position:

It is the City's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

n. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the City classifies governmental fund balances as follows:

1. Nonspendable – Includes fund balance amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints.
2. Restricted – Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
3. Committed – included fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end. The governing board has committed fund balances for hospital and event center purposes.
4. Assigned – Includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund Balance may be assigned by the Finance Officer.
5. Unassigned – Includes positive fund balances within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The Nonspendable Fund Balance is comprised of inventory and prepaid expenses.

The Committed Fund Balance is for capital replacements.

The City uses restricted/committed amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the Government would first use assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made. The City does not have a formal minimum fund balance policy.

The purpose of each major special revenue fund and revenue source is listed below:

<u>Major Special Revenue Fund</u>	<u>Revenue Source</u>
Liquor, Lodging & Dining Sales Tax Fund	Sales Tax
Hospital Fund	Lease Proceeds
Library Fines Fund	Contributions & Donations from Private Sources

**1. Summary of Significant Accounting Policies: (Continued)**

o. Pensions:

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. Municipal contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

**2. Deposits and Investments, Credit Risk, Concentrations of Credit Risk, and Interest Rate Risk:**

The City follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

**Deposits:**

The City's cash deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 9-22-6, 9-22-6.1, and 9-22-6.2, and may be in the form of demand or time deposits. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100% of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

**Investments:**

In general, SDLC 4-5-6 permits City funds to be invested only in:

- a. Securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or
- b. Repurchase agreements fully collateralized by securities described in a. above; or in shares of an open-end, no load fund administered by an investment company whose investments are in securities described in a. above and repurchase agreements described in b. above.

Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**2. Deposits and Investments, Credit Risk, Concentrations of Credit Risk, and Interest Rate Risk: (Continued)**

**Fair Value Measurement:**

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**Credit Risk:**

State law limits eligible investments for the City, as discussed above. The City has no investment policy that would further limit its investment choices.

As of December 31, 2021, the City had no investments.

**Interest-Rate Risk:**

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Concentration of Credit Risk:**

The City places no limit on the amount that may be invested in any one issuer.

**Assignment of Investment Income:**

State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The Municipality's policy is to credit all income from investments to the fund making the investment, except for interest generated by the Cemetery Perpetual Care Fund, which must be credited to the General Fund, and used only for maintenance of the municipal cemetery, as required by SDCL 9-32-18.

**3. Restricted Cash and Investments:**

Assets restricted to use for a specific purpose through segregation of balances are as follows:

<u>Amount</u>	<u>Purpose</u>
\$ 126,869	For facilities and promoting the City
\$ 8,818	Donor restricted for purposes for library
\$ 35,108	Donor restricted purposes for fire department
\$ 103,731	Debt service for water and sewer
\$ 13,688	Donor restricted purposes for depot museum

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**4. Receivables and Payables:**

Receivables and payables are not aggregated in these financial statements. The City expects all receivables to be collected within one year.

**5. Restricted Net Position:**

Restricted Net Position for the year ended December 31, 2021 was as follows:

Restricted for:	
Debt service purposes	\$ 103,731
Depot museum	13,688
Facilities and promoting the city	127,781
Library purposes	8,818
Fire department	35,108
SDRS pension purposes	48,289
Total Restricted Net Position	<u>\$ 337,415</u>

These balances are restricted due to federal grant and statutory requirements.

**6. Inventory:**

Inventory in the General Fund and special revenue funds consists of expendable supplies held for consumption. Supply inventories are recorded at cost. Inventory acquired for resale in the proprietary funds is recorded as an asset when acquired. The consumption of inventories held for resale is charged to expense as it is consumed. Inventories held for resale are recorded at the lower of cost or market, on the first-in, first-out cost flow assumption.

**Government-Wide Financial Statements:**

In the government-wide financial statements, inventory is recorded as an asset at the time of purchase and charged to expense as it is consumed.

**Fund Financial Statements:**

In the fund financial statements, inventory is recorded as an asset at the time of purchase and charged to expense as it is consumed. Material supply inventories are off-set by nonspendable fund balance which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

**7. Property Taxes:**

Property taxes are levied on or before October 1, of the year preceding the start of the fiscal year. They attach as an enforceable lien on property and become due and payable as of the following January 1, the first day of the fiscal year. Taxes are payable in two installments on or before April 30 and October 31 of the fiscal year. The City is permitted by several state statutes to levy varying amounts of taxes per \$1,000 of taxable valuation on taxable real property in the City.

**8. Changes in Capital Assets:**

A summary of changes in capital assets for the year ended December 31, 2021 is as follows:

	<u>Balance 1/01/21</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance 12/31/21</u>
<b>Governmental Activities:</b>				
Capital assets, not being depreciated:

**10. Long-Term Liabilities: (Continued)**

Debt payable at December 31, 2021 is comprised of the following:

**Long-Term Liabilities:**

Promissory Note Series 2008 (TID #1)	A long-term loan payable twice a year payments with the last payment scheduled to be made in December 2021 at an interest rate of 3.75%. Payable to Wilder Pass LLC for reimbursement of payments made on behalf of the City in 2010-2013, payable by the Tax Incremental District No. 1 Debt Service Fund.	\$ 4,148
Revenue Borrower Bonds, Series 2009	A long-term bond with quarterly payments of \$2,666 with an interest rate of 2.25% with the last payment scheduled to be made October 2032. Payable from the Debt Service Fund.	102,584
Revenue Borrower Bonds, Series 2023	A long-term bond with quarterly payments of \$4,043 with an interest rate of 1.875% with the last payment scheduled to be made January 2053. Payable from the Debt Service Fund.	347,189
Compensated Absences	The liability for compensated absences represents leave benefits earned as of December 31, 2021. The compensated absences in the Governmental Activities are currently paid from the General Fund. The compensated absences in the Business-Type Activities are currently paid from the Water Fund and Sewer Fund.	<u>13,810</u>
Grand Total		<u>\$ 467,731</u>

**11. Pension Plan:**

**Plan Information:**

All employees, working more than 20 hours per week during the year, participate in the South Dakota Retirement System (SDRS), a cost sharing, multiple employer hybrid defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <http://sdrs.sd.gov/publications.aspx> or by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

**Benefits Provided:**

SDRS has three different classes of employees, Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirements that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to the long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**11. Pension Plan: (Continued)**

- The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

**Contributions:**

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The City's share of contributions to the SDRS for the calendar years ended December 31, 2021, 2020, and 2019, equal to the required contributions each year, were as follows:

2021	\$	24,714
2020		23,430
2019		22,320

**Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:**

At June 30, 2021, SDRS is 105.53% funded and accordingly has a net pension asset. The proportionate share of the components of the net pension asset of the South Dakota Retirement System, for the City as of this measurement period ending June 30, 2021 and reported by the City as of December 31, 2021 are as follows:

Proportionate share of pension liability	\$	2,437,569
Less proportionate share of net pension restricted for pension benefits		2,572,194
Proportionate share of net pension (asset)	\$	(134,625)

At December 31, 2021, the City reported an asset of \$(134,625) for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2021 and the total pension asset used to calculate the net pension asset was based on a projection of the City's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2021, the City's proportion was 0.01757900%, which is a decrease of -0.0000720% from its proportion measured as of June 30, 2020.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**11. Pension Plan: (Continued)**

For the year ended December 31, 2021, the City recognized a reduction of pension expense of (\$34,289). At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 4,833	\$ 353
Changes in assumption	154,817	67,418
Net Difference between projected and actual earnings on pension plan investments	--	192,315
Changes in proportion and difference between City contributions and proportionate share of contributions	1,727	331
City contributions subsequent to the measurement date	12,704	--
	\$ 174,081	\$ 260,417

\$12,704 reported as deferred outflow of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (reduction of pension expense) as follows:

<b>Year Ended</b>	
<b>December 31:</b>	
2022	\$ (23,752)
2023	(16,436)
2024	(4,749)
2025	(54,103)
	\$ (99,040)

The total pension asset in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary Increases	Graded by years of services, from 6.50% at entry to 3.00% after 25 years of service.
Discount Rate	6.50% net of plan investment expense. This is composed of an average inflation rate of 2.25% and real returns of 4.25%.
Future COLAs	2.25%

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**11. Pension Plan: (Continued)**

Mortality rates were based on 97% of the RP-2014 Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

**Actuarial Assumptions:**

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	58.0%	4.3%
Fixed income	30.0%	1.6%
Real estate	10.0%	4.6%
Cash	2.0%	0.9%
Total	<u>100%</u>	

**Discount Rate:**

The discount rate used to measure the total pension asset was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension (asset).

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**11. Pension Plan: (Continued)**

**Sensitivity of Liability (Asset) to Changes in the Discount Rate:**

The following presents the City's proportionate share of net pension (asset) calculated using the discount rate of 6.50%, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

	<b>1% Decrease</b>	<b>Current Discount Rate</b>	<b>1% Increase</b>
City's proportionate share of the net pension (asset)	\$ 217,991	\$ (134,625)	\$ (420,868)

**Pension Plan Fiduciary Net Position:**

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

**12. Risk Management:**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended December 31, 2021 the City managed its risks as follows:

**Employee Health Insurance:**

The City joined the South Dakota Municipal League Health Pool of South Dakota. This is a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The City pays a monthly premium to the pool to provide health insurance coverage for its employees. The pool purchases reinsurance coverage with the premiums it receives from the members. Under the US Health Care Law it is no longer allowed for insurance companies to set a dollar limit on essential health benefits for either annual or lifetime coverage.

## **12. Risk Management: (Continued)**

### **Workers' Compensation:**

The City joined the South Dakota Municipal League Workers' Compensation Fund (Fund), a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The objective of the Fund is to formulate, develop, and administer, on behalf of the member organizations, a program of workers' compensation coverage, to obtain lower costs for that coverage, and to develop a comprehensive loss control program. The City's responsibility is to initiate and maintain a safety program to give its employees safe and sanitary working conditions and to promptly report to and cooperate with the Fund to resolve any workers' compensation claims. The City pays an annual premium to provide workers' compensation coverage for its employees, under a self-funded program and the premiums are accrued based on the ultimate cost of the experience to date of the Fund members. Coverage limits are set by state statute. The pool pays the first \$650,000 of any claim per individual. The pool has reinsurance which covers up to statutory limits in addition to a separate combined employer liability limit of \$2,000,000 per incident.

The City does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

### **Liability Insurance:**

The City joined the South Dakota Public Assurance Alliance (SDPAA), a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The objective of the SDPAA is to administer and provide risk management services and risk sharing facilities to the members and to defend and protect the members against liability, to advise members on loss control guidelines and procedures, and provide them with risk management services, loss control and risk reduction information and to obtain lower costs for that coverage. The City's responsibility is to promptly report to and cooperate with the SDPAA to resolve any incident which could result in a claim being made by or against the City. The City pays a Members' Annual Operating Contribution, to provide liability coverage detailed below, under occurrence-made policy and the premiums are accrued based on the ultimate cost of the experience to date of the SDPAA member, based on their exposure or type of coverage. The City pays an annual premium to the pool to provide coverage for:

- General liability, vehicles and equipment

Effective October 5, 2021, the SDPAA adopted a new policy on member departures. Departing members will no longer be eligible for any partial refund of the calculated portion of their contributions which was previously allowed. The prior policy provided the departing member with such a partial refund because the departing member took sole responsibility for all claims and claims expenses whether reported or unreported at the time of their departure from the SDPAA. With such partial refund being no longer available, the SDPAA will now assume responsibility for all reported claims of a departing member pursuant to the revised IGC.

**City of De Smet**  
Notes to Financial Statements  
December 31, 2021

---

**12. Risk Management: (Continued)**

The City reflected the effects of the new SDPAA policy in the financial statements as a Change in Accounting Estimate in the Statement of Activities and in the Fund Operating Statements and also eliminated the reporting of the Deposit on the Statement of Net Position and Fund Balance Sheet.

The City's deductibles range from \$1,000-\$5,000 and a \$10,000 deductible for larger equipment. The City does not carry additional insurance to cover claim in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

**Unemployment Benefits:**

The City provides coverage for unemployment benefits by paying into the Unemployment Compensation Fund established by state law and managed by the State of South Dakota.

**13. Emerging Accounting Standards:**

In June 2017, the GASB issued Statement No. 87, Leases, which requires the recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the terms of the lease. The statement requires a lessee to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The City has not yet determined the specific impact of this statement on the financial statements. The standard is effective for the City's year ending December 31, 2022.

Notes to the Required Supplementary Information  
December 31, 2021

---

**1. Budgets and Budgetary Accounting:**

The City follows these procedures in establishing the budgetary data reflected in the schedules:

1. At the first regular board meeting in September of each year, or within ten days thereafter, the governing board introduces the annual appropriation ordinance for the ensuing fiscal year.
2. After adoption by the governing board, the operating budget is legally binding and actual expenditures for each purpose cannot exceed the amounts budgeted, except as indicated in number 4.
3. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5% of the total city budget and may be transferred by resolution of the governing board to any other budget category that is deemed insufficient during the year.
4. If it is determined during the year that sufficient amounts have not been budgeted, state statute allows the adoption of supplemental budgets.
5. Unexpended appropriations lapse at year-end unless encumbered by resolution of the governing board.
6. Formal budgetary integration is employed as a management control device during the year for the General Fund and special revenue funds.
7. Budgets for the General Fund and special revenue funds are adopted on a basis consistent with accounting principles generally accepted in the United States (USGAAP).

8. GAAP/Budgetary Accounting Basis Differences:

The financial statements prepared in conformity with USGAAP applied within the context of the modified accrual basis of accounting present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new fire truck would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a fire truck would be reported as an expenditure of the Public Safety/Fire Department function of government, along with all other current Fire Department related expenditures.

## City of De Smet

### Notes to Required Supplementary Information

#### Schedule of Proportionate Share of the Net Pension Liability (Asset) and Schedule of Pension Contributions

---

#### **Changes from Prior Valuation**

The June 30, 2021 Actuarial Valuation reflects no changes in actuarial methods from the June 30, 2020 Actuarial Valuation. One change in actuarial assumptions and one plan provision change are reflected and described below.

The details of the changes since the last valuation are as follows:

#### **Benefit Provision Changes**

Legislation enacted in 2021 reduced the minimum SDRS COLA from 0.5% to 0%. This change will impact the SDRS COLA only when inflation is very low or when a restricted maximum COLA of 0.5% is not affordable. The change had no impact on the current assets or liabilities of SDRS.

#### **Actuarial Assumption Changes**

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0% (0.5% prior to 2021) and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2020 and the July 2021 SDRS COLA was limited to a restricted maximum of 1.41%. As of June 30, 2021, the FVFR assuming the COLA is equal to the baseline COLA assumption is greater than 100%. The July 2022 SDRS COLA will equal inflation, between 0% and 3.5%. For the June 30, 2020 Actuarial Valuation, future COLAs were assumed to equal the restricted maximum COLA of 1.41%. For this June 30, 2021 Actuarial Valuation, future COLAs are assumed to equal the baseline COLA assumption of 2.25%.

The change in the COLA assumption increased the Actuarial Accrued Liability by \$1,135 million, or 8.9% of the Actuarial Accrued Liability based on the 1.41% restricted maximum COLA.

Actuarial assumptions are reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes approved by the Board of Trustees are anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

#### **Actuarial Method Changes**

No changes in actuarial methods were made since the prior valuation.

**City of De Smet**  
Supplemental Information  
Schedule of Expenditures of Federal Awards  
Year Ended December 31, 2021 (Continued)

---

**Note 1: Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the City under programs of the federal government for the year ended December 31, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

**Note 2: Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The City has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.
