Independent Auditor's Report on Internal Control over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards*

Mayor and City Council
City of Martin, South Dakota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the modified cash basis financial statements of the governmental activities, the business-type activities, and each major fund of the City of Martin, South Dakota (the City), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 4, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying Schedule of Findings and Management's Response as item 2025-001, that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Governmental Auditing Standards*.

City of Martin, South Dakota's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the finding identified in our audit and described in the accompanying Schedule of Findings and Management's Response. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota codified law 4-11-11, this report is a matter of public record and its distribution is not limited.

City of Martin, South Dakota
Schedule of Findings and Management's Response
December 31, 2025

Material Weakness

Internal Control over Financial Reporting

Drafting the Financial Statements and Related Notes

2025-001 *Condition:* The City requests its auditor to draft the year-end financial statements and accompanying notes.

Criteria: Establishing internal controls over the preparation of the financial statements and accompanying notes is the responsibility of management.

Cause: The City does not have an internal control system in place to prepare the financial statements and related notes. This condition is common in an organization of this size due to the limited number of office staff.

Effect: The City engages its auditor to draft the financial statements and related notes to the financial statements. The possibility of errors occurring and not being detected or corrected is present.

Repeat of Prior Year Finding: This finding was reported in all prior years.

Auditor's Recommendation: We recommend management develop a system of internal control for the preparation of financial statements and the notes to the financial statements. If management does not have the resources or expertise to prepare the financial statements, we recommend that a qualified CPA be engaged to mitigate or eliminate this control weakness.

Management's Response: Management agrees with the finding. This is a common issue with governments of this size and management feels comfortable with this practice. The City will implement suggested controls wherever cost-effective. Management does provide the auditors with a trial balance and supporting schedules that are used in the preparation of the financial statements.

Responsible Parties: Finance Officer

Time Frame: Ongoing

Independent Auditor's Report

Mayor and City Council
City of Martin, South Dakota

Report on the Audit of the Financial Statements

Opinions

We have audited the modified cash basis financial statements of the governmental activities, business-type activities, and each major fund of the City of Martin, South Dakota (the City), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, and each major fund of the City as of December 31, 2025, and the respective changes in modified cash basis financial position thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The budgetary comparison schedules, Schedule of the City's Proportionate Share of the Net Pension Liability (Asset), Schedule of Pension Contributions, the Notes to the Supplementary Information, and the List of City Officials are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The aforementioned supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We have applied certain limited procedures to the supplementary information, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 4, 2026 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 1.C., these financial statements are presented on the modified cash basis of accounting. The modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP) as described within this note. Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements.

A. REPORTING ENTITY

The reporting entity of the City of Martin, South Dakota (the City) consists of the primary government which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity; those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

B. BASIS OF PRESENTATION

Government-wide Financial Statements:

The Statement of Net Position - Modified Cash Basis and the Statement of Activities - Modified Cash Basis display information about the City as a whole. They include all funds of the City except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental receipts, and other non-exchange receipts. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The City has no fiduciary funds.

The Statement of Activities - Modified Cash Basis presents a comparison between direct disbursements and program receipts for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct disbursements are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program receipts include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Receipts that are not classified as program receipts, including all taxes, are presented as general receipts.

Fund Financial Statements:

The fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, receipts, and disbursements. The funds of the City are organized into two major categories: governmental and proprietary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City, or if it meets the following criteria:

1. Total assets, receipts, or disbursements of the individual governmental or enterprise fund are at least ten percent of the corresponding total for all funds of that category or type, and
2. Total assets, receipts, or disbursements of the individual governmental or enterprise fund are at least five percent of the corresponding total for all governmental and enterprise funds combined, or
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The funds of the City are described below:

Governmental Funds:

General Fund - The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is always considered to be a major fund.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than trusts for individuals, private organizations, or other governments or for major capital projects) that are legally restricted to expenditures for specified purposes.

Liquor, Lodging, and Dining Gross Receipts Tax (BBB) Fund - To account for the collection of a 1% tax on the gross receipts of lodgings, alcoholic beverages, prepared food, and admissions. This tax shall be used for the purpose of land acquisition, architectural fees, construction costs, payments for the civic center, auditorium, and athletic facility buildings, including the maintenance, staffing, and operations of such facilities, and promotion and advertising of the City per SDCL 10-52A-2. This fund was established at the direction of the governing body through a local ordinance. This fund is a major fund.

Proprietary Funds:

Enterprise Funds - Enterprise funds may be used to report any activity for which a fee is charged to external users for goods and services. Activities are required to be reported as enterprise funds if one of the following criteria is met. Governments should apply each of the following criteria in the context of the activity's principal revenue source:

- a. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit, even if that government is not expected to make any payments, is not payable solely from fees and charges of the activity.
- b. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- c. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Water Fund - Financed primarily by user charges, this fund accounts for the construction and operation of the municipal waterworks system and related facilities (SDCL 9-47-1). This fund is a major fund.

Sewer Fund - Financed primarily by user charges, this fund accounts for the construction and operation of the municipal sanitary sewer system and related facilities (SDCL 9-48-2). This fund is a major fund.

Sanitation Fund - Financed primarily by user charges, this fund accounts for the operation of the solid waste program (SDCL 9-32-11). This fund is a major fund.

City of Martin, South Dakota
Notes to the Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe “how” transactions are recorded within the various financial statements. Basis of accounting refers to “when” revenues and expenditures are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

The City follows the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Under accounting principles generally accepted in the United States of America, revenues and related assets are recorded when earned (usually when the rights to receive cash vests); and expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests). Under the modified cash basis, transactions are recorded when cash is received or disbursed. Under the modified cash basis of accounting, cash may have been received in advance of the City’s providing a good or service to a customer. These amounts are reported in the financial statements at the time of receipt, as applicable.

Measurement Focus

Government-wide Financial Statements:

In the Statement of Net Position - Modified Cash Basis and the Statement of Activities - Modified Cash Basis, both governmental and business-type activities are presented using the economic resources measurement focus, applied within the limitations of the modified cash basis of accounting as defined below.

Fund Financial Statements:

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus is used, applied within the limitations of the modified cash basis of accounting.

Basis of Accounting

In the Statement of Net Position - Modified Cash Basis, the Statement of Activities - Modified Cash Basis, and the fund financial statements, the governmental and business-type activities are presented using the modified cash basis of accounting.

The modified cash basis of accounting involves the measurement of cash and cash equivalents and changes in cash and cash equivalents resulting from cash receipts and disbursement transactions. Under the modified cash basis of accounting, the balance sheet reports only cash and cash equivalents (those investments with terms to maturity of 90 days or less at the date of acquisition). Under the modified cash basis of accounting, transactions are recorded in the accounts when cash and/or cash equivalents are received or disbursed and assets and liabilities are recognized to the extent that cash has been received or disbursed. The City presents negative cash balances rather than inter-fund loans.

Acceptable modifications to the modified cash basis of accounting implemented by the City in these financial statements include the recording of investments (certificates of deposit with terms to maturity more than 90 days from the date of acquisition) arising from cash transactions.

As a result of the use of this modified cash basis of accounting, certain assets and their related receipts (such as accounts receivable and revenue billed or provided services not yet collected) and certain liabilities and their related disbursements (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

If the City applied accounting principles generally accepted in the United States of America, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

D. DEPOSITS AND INVESTMENTS

The City pools its cash resources for deposit purposes. The proprietary funds have access to their cash resources on demand.

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts and certificates of deposit or short-term investments with a term to maturity at the date of acquisition of three months or less.

Investments classified in the financial statements consist entirely of certificates of deposit whose term to maturity at the date of acquisition exceeds three months, and/or those types of investments authorized by South Dakota Codified Law (SDCL) 4-5-6.

The City maintains restricted cash deposits for the debt reserves required by debt agreements and for customer utility deposits.

E. CAPITAL ASSETS

Under the modified cash basis of accounting, the City's capital assets are considered a cost of the program for which they were acquired, for the amount paid in cash, in the government-wide financial statements. The fund financial statements and the proprietary financial statements report such purchases as capital outlay.

Under the modified cash basis of accounting, cash payments for lease activities are a cost of the program for which they were acquired and the amount paid in cash is reflected in both the government-wide and fund financial statements. Right-to-use lease assets arising from leasing activities are not reported as assets in the modified cash basis financial statements.

F. LONG-TERM LIABILITIES

Under the modified cash basis of accounting, cash proceeds from long-term debt issuances are recorded as a receipt, while payments to creditors to reduce long-term debts are recorded as a cost of the program that benefits from the financing. Allocations are made where appropriate. Interest costs are not allocated but are reported as a separate program cost category.

Long-term debt arising from cash transactions of all funds is not reported as liabilities in the modified cash basis financial statements.

Under the modified cash basis of accounting, cash payments for lease activities are recorded as expenditures in the function benefiting from the use of the leased asset. Allocations are made where appropriate. Lease liabilities arising from leasing activities are not reported as liabilities in the modified cash basis financial statements.

G. PROGRAM RECEIPTS

Program receipts derive directly from the program itself or from parties other than the City's taxpayers or citizenry as a whole. Program receipts are classified into three categories as follows:

Charges for Services - These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided or are otherwise directly affected by the services.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Program-specific Operating Grants and Contributions - These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.

Program-specific Capital Grants and Contributions - These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

H. PROPRIETARY FUNDS RECEIPTS AND DISBURSEMENTS CLASSIFICATIONS

Operating receipts and disbursements for proprietary funds result from providing services and producing and delivering goods and services. They also include all receipts and disbursements not related to capital and related financing, noncapital financing, or investing activities.

I. EQUITY CLASSIFICATIONS

Government-wide Financial Statements:

Equity is classified as net position and is displayed in one of the following two components under the modified cash basis:

Restricted Net Position - Consists of net position with constraints placed on the use either by (a) external groups such as creditors, grantors, or contributors, or laws and regulations of other governments, or (b) law through constitutional provisions or enabling legislation.

Unrestricted Net Position - Includes all other net position that does not meet the definition of restricted net position.

Fund Financial Statements:

Governmental fund equity is classified as fund balance and may be distinguished between "nonspendable," "restricted," "committed," "assigned," and "unassigned" components. Proprietary fund equity is classified the same as in the government-wide financial statements.

The City classifies governmental fund balances as follows:

Nonspendable - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints. The City has no nonspendable fund balances.

Restricted - Includes fund balance amounts that are constrained for specific purposes that are externally imposed by providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation.

Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the City Council members by resolution and do not lapse at year-end. No commitments have been made by the City.

Assigned - Includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund balance may be assigned by the City Council members.

Unassigned - Includes positive fund balance within the General Fund, which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The City uses restricted amounts first when both restricted and unrestricted fund balances/net position are available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar-for-dollar spending. Additionally, the City would first use committed, then assigned, and lastly, unassigned amounts of unrestricted fund balance when disbursements are made.

The City does not have a formal minimum fund balance policy.

NOTE 2 - DEPOSITS, INVESTMENTS, CREDIT RISK, CONCENTRATIONS OF CREDIT RISK, AND INTEREST RATE RISK

The City follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits

The City's cash deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 9-22-6, 9-22-6.1, and 9-22-6.2 and may be in the form of demand or time deposits. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts that exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments

In general, SDCL 4-5-6 permits City funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent. Investments classified in the financial statements consist entirely of certificates of deposit.

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk. As of December 31, 2025, the City's bank balances above FDIC limits are insured and collateralized in compliance with the South Dakota Public Deposit Protection Collateral Program.

Concentration of Credit Risk - The City places no limit on the amount that may be invested in one issuer.

Interest Rate Risk - The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 2 - DEPOSITS, INVESTMENTS, CREDIT RISK, CONCENTRATIONS OF CREDIT RISK, AND INTEREST RATE RISK (CONTINUED)

Credit Risk - State law limits eligible investments for the City, as discussed above. The City has no investment policy that would further limit its investment choices. The City has all of its deposits in demand deposits and certificates of deposit.

Assignment of Investment Income - State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The City's policy is to credit all income from investments to the fund making the investment.

NOTE 3 - RESTRICTED CASH AND INVESTMENTS

Assets restricted to use for a specific purpose through segregation of balances in separate accounts are for bond redemption and asset management reserves required by debt agreements and customer utility deposits. Deposits are required to be made to the debt-related reserve accounts until account balances equal the amount of one year's debt payment. The City has made appropriate reserve deposits according to the requirement.

NOTE 4 - PROPERTY TAXES

Property taxes are levied on or before October 1 of the year preceding the start of the fiscal year. They attach as an enforceable lien on property and become due and payable as of the following January 1, the first day of the fiscal year. Taxes are payable in two installments on or before April 30 and October 31 of the fiscal year. The City is permitted by several state statutes to levy varying amounts of taxes per \$1,000 of taxable valuation on taxable real property in the City.

NOTE 5 - COMMITMENTS

As discussed in Note 1.C., the financial statements are presented using a modified cash basis of accounting. The City has not elected to modify its cash basis presentation by recording long-term debt arising from cash transactions so any outstanding indebtedness is not reported on the financial statements. The City does report the principal and interest payments on long-term debt as debt service expenditures on the Statement of Receipts, Disbursements, and Changes in Fund Balance - Modified Cash Basis - Governmental Funds and on the Statement of Receipts, Disbursements, and Changes in Net Position - Modified Cash Basis - Proprietary Fund. On the Statement of Activities - Modified Cash Basis, the principal and interest portion of these debt service payments are reported within the appropriate expense function.

The following is a summary of the changes in long-term commitments for the year ended December 31, 2025:

	Balance 12/31/24	Advances	Payments	Balance 12/31/25	Due Within One Year
Business-type Activities:					
Bonds:					
Water Improvements	\$ 374,299	\$ -	\$ (34,428)	\$ 339,871	\$ 35,278
Sewer Improvements	144,431	-	(15,325)	129,106	4,152
Water Improvements #2	356,332	-	(10,964)	345,368	11,185
Total Bonds	<u>\$ 875,062</u>	<u>\$ -</u>	<u>\$ (60,717)</u>	<u>\$ 814,345</u>	<u>\$ 50,615</u>

City of Martin, South Dakota
Notes to the Financial Statements

NOTE 5 - COMMITMENTS (CONTINUED)

	Balance 12/31/24	Advances	Payments	Balance 12/31/25	Due Within One Year
Governmental Activities:					
Notes from					
Direct Borrowings:					
2020 Dodge Durango	\$ 5,495	\$ -	\$ (5,495)	\$ -	\$ -
2021 Dodge Durango	10,933	-	(10,933)	-	-
Total Direct Borrowings	<u>\$ 16,428</u>	<u>\$ -</u>	<u>\$ (16,428)</u>	<u>\$ -</u>	<u>\$ -</u>
Total Commitments	<u>\$ 891,490</u>	<u>\$ -</u>	<u>\$ (77,145)</u>	<u>\$ 814,345</u>	<u>\$ 50,615</u>

Long-term commitments at December 31, 2025 are comprised of the following:

Water Improvements - State Drinking Water Revolving Fund loan in the amount of \$920,000 requiring quarterly payments of \$10,866 including interest at a rate of 2.5% with final maturity in April 2034. Payments are made from water service charges in the Water Fund.

\$ 339,871

Sewer Improvements - USDA Rural Development loan for a sewer lagoon stabilization project in the amount of \$416,000 requiring monthly payments of \$1,531 including interest at a rate of 3.0% with final maturity in August 2050. Payments are made from the Sewer Fund.

129,106

Water Improvements #2 - State Drinking Water Revolving Fund loan in the amount of \$440,525 requiring quarterly payments of \$4,502, including interest at a rate of 2.0% with final maturity in January 2050. Payments are made from water service user surcharges in the Water Fund.

345,368
\$ 814,345

The annual requirements to amortize the long-term commitments outstanding as of December 31, 2025 including interest are as follows:

	Business-type Activities		
	Bonds		
	Principal	Interest	Total
2026	\$ 50,615	\$ 19,294	\$ 69,909
2027	51,859	18,050	69,909
2028	53,134	16,775	69,909
2029	54,440	15,469	69,909
2030	55,779	14,130	69,909
2031 - 2035	244,289	50,014	294,303
2036 - 2040	100,850	31,374	132,224
2041 - 2045	113,117	19,106	132,223
2046 - 2050	90,262	6,368	96,630
	<u>\$ 814,345</u>	<u>\$ 190,580</u>	<u>\$ 1,004,925</u>

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 6 - LANDFILL

The City operates a restricted-use solid waste facility. This facility accepts very specific waste from the public. The City has a current permit for the limited waste facility. State and EPA regulations do not require the accumulation of assets for the remediation of this type of waste facility.

NOTE 7 - LEASES

The City leased a copy machine for a term of three years with monthly installments of \$189 that expired in September 2025. The City transitioned to a new three-year copier lease with monthly payments of \$114 which expires in September 2028. Payments made during the year ended December 31, 2025 totaled \$1,704 for the expired lease and \$342 for the new lease. Future lease payments are as follows:

2026	\$	1,370
2027		1,370
2028		1,027
	\$	<u>3,767</u>

The City leased land at the airport to a third party for a term of one year during the year ended December 31, 2024 with an annual payment of \$3,425 for which the payment received during the year ended December 31, 2025. A new lease was entered into during the year ended December 31, 2025 with an annual payment of \$5,700. However, no payment was received on this lease during the year ended December 31, 2025.

NOTE 8 - PENSION PLAN

Plan Information

All employees working more than 20 hours per week during the year participate in the South Dakota Retirement System (SDRS). SDRS is a hybrid defined benefit plan designed with several defined contribution plan-type provisions and is administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. Authority for establishing, administering, and amending plan provisions is found in SDCL 3-12C. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <http://sdrs.sd.gov/publications.aspx> or by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098, or by calling (605) 773-3731.

Benefits Provided

SDRS has four classes of members: Class A general members, Class B public safety and judicial members, Class C Cement Plant Retirement Fund members, and Class D Department of Labor and Regulation members.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 8 - PENSION PLAN (CONTINUED)

Members who were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirement benefits that do not meet the above criteria may be payable at a reduced level. Class A and B eligible spouses of Foundation members will receive a 60 percent joint survivor benefit when the member dies.

Members who were hired on or after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60% joint and survivor benefit, or a 100% joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5% of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to the long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the third quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the third quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater than or equal to the accrued liabilities.

Legislation enacted in 2021 reduced the minimum COLA from 0.5% to 0.0%.

All benefits except those depending on the member's accumulated contributions are annually increased by the cost-of-living adjustment.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 8 - PENSION PLAN (CONTINUED)

Contributions

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The City's share of contributions to the SDRS for the years ended December 31, 2025, 2024, and 2023, equal to required contributions, were \$19,810, \$32,775, and \$30,527, respectively.

Pension Liabilities (Assets)

At June 30, 2025, SDRS is 100.06% funded and, accordingly, has a net pension asset. The proportionate share of the components of the net pension asset of the South Dakota Retirement System, for the City as of this measurement period ending June 30, 2025 and reported by the City as of December 31, 2025 is as follows:

Proportionate Share of Pension Liability	\$ 2,161,243
Less: Proportionate Share of Net Pension Restricted for Pension Benefits	<u>2,162,447</u>
Proportionate Share of Net Pension Liability (Asset)	<u>\$ (1,204)</u>

At December 31, 2025, the City had a liability (asset) of \$(1,204) for its proportionate share of the net pension liability (asset). This asset is not reflected in the financial statements due to the modified cash basis of reporting. The net pension liability (asset) was measured as of June 30, 2025 and the total pension liability (asset) used to calculate the net pension liability (asset) was based on a projection of the City's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2025, the City's proportion was 0.014160%, which is a decrease of 0.005052% from its proportion measured as of June 30, 2024.

Actuarial Assumptions

The total pension liability (asset) in the June 30, 2025 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases	Graded by years of service, from 7.66% at entry to 3.15% after 25 years of service
Discount Rate	6.50% net of plan investment expense. This is composed of an average inflation rate of 2.50% and real returns of 4.00%.
Future COLAs	1.56%

Mortality Rates

- All mortality rates based on Pub-2010 amount-weighted mortality tables, projected generationally with improvement scale MP-2020:
- Active and Terminated Vested Members:
 - Teachers, Certified Regents, and Judicial: PubT-2010
 - Other Class A Members: PubG-2010
 - Public Safety Members: PubS-2010

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 8 - PENSION PLAN (CONTINUED)

- Retired Members:
 - Teachers, Certified Regents, and Judicial Retirees: PubT-2010, 108% of rates above age 65
 - Other Class A Retirees: PubG-2010, 93% of rates through age 74, increasing by 2% per year until 111% of rates at age 83 and above
 - Public Safety Retirees: PubS-2010, 102% of rates at all ages
- Beneficiaries:
 - PubG-2010 contingent survivor mortality table
- Disabled Members:
 - Public Safety: PubS-2010 disabled member mortality table
 - Others: PubG-2010 disabled member mortality table

The actuarial assumptions used in the June 30, 2025 valuation were based on the results of an actuarial experience study for the period of July 1, 2016 to June 30, 2021.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for the management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the Council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed-income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2025 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Public Equity	56.3%	3.8%
Investment Grade Debt	22.8%	2.3%
High Yield Debt	7.0%	2.9%
Real Estate	12.0%	4.0%
Cash	1.9%	0.8%
	<u>100%</u>	

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 8 - PENSION PLAN (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability (asset) was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

Sensitivity of Liability (Asset) to Changes in the Discount Rate

The following presents the City's proportionate share of net pension liability (asset) calculated using the discount rate of 6.50%, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (5.50%) or one percentage point higher (7.50%) than the current rate:

	<u>1%</u> <u>Decrease</u>	<u>Current</u> <u>Discount</u> <u>Rate</u>	<u>1%</u> <u>Increase</u>
City's Proportionate Share of the Net Pension Liability (Asset)	\$ 295,156	\$ (1,204)	\$ (243,994)

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

NOTE 9 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended December 31, 2025, the City managed its risks as follows:

Liability Insurance

The City joined the South Dakota Public Assurance Alliance (SDPAA), a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The objective of the SDPAA is to administer and provide risk management services and risk-sharing facilities to the members and to defend and protect the members against liability, to advise members on loss control guidelines and procedures, and to provide them with risk management services, loss control, and risk reduction information and to obtain lower costs for that coverage. The City's responsibility is to promptly report to and cooperate with the SDPAA to resolve any incident that could result in a claim being made by or against the City. The City pays a Members' Annual Operating Contribution to provide liability coverage detailed below under an occurrence-made policy. The premiums are accrued based on the ultimate cost of the experience to date of the SDPAA member based on their exposure or type of coverage. The City pays an annual premium to the pool to provide coverage for torts, theft or damage to property, and errors and omissions of public officials.

City of Martin, South Dakota
Notes to the Financial Statements
December 31, 2025

NOTE 9 - RISK MANAGEMENT (CONTINUED)

The City has no deductible for general liability coverage and auto liability coverage, a \$5,000 deductible for officials' liability coverage, a \$2,500 deductible for real and personal property coverage, and a \$500 deductible for all other claims.

The City does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Unemployment Benefits

The City has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits. The City did not pay any claims during the year ended December 31, 2025. No claims are expected next year.

Worker's Compensation

The City joined the South Dakota Municipal League Worker's Compensation Fund (the Fund), a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The objective of the Fund is to formulate, develop, and administer, on behalf of the member organizations, a program of worker's compensation coverage, to obtain lower costs for that coverage, and to develop a comprehensive loss control program. The City's responsibility is to initiate and maintain a safety program to give its employees safe and sanitary working conditions and to promptly report to and cooperate with the Fund to resolve any worker's compensation claims. The City pays an annual premium to provide worker's compensation coverage for its employees under a self-funded program and the premiums are accrued based on the ultimate cost of the experience to date of the Fund members. Coverage limits are set by state statute. The pool pays the first \$650,000 of any claim per individual. The pool has reinsurance which covers up to statutory limits in addition to a separate combined employer liability limit of \$2,000,000 per incident.

The City does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

Employee Health Insurance

The City joined the South Dakota Municipal League Health Pool of South Dakota. This is a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The City pays a monthly premium to the pool to provide health insurance coverage for its employees. The pool purchases reinsurance coverage with the premiums it receives from the members. The coverage also includes an unlimited lifetime maximum payment per person. The City does not carry additional health insurance coverage to pay claims in excess of this upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Notes to the Financial Statements
December 31, 2025

NOTE 10 - RESTRICTED NET POSITION

The amount classified as restricted net position at December 31, 2025 is classified as follows:

	Governmental Funds	Proprietary Funds	Total
By Donor	\$ 27,062	\$ -	\$ 27,062
By Grantor	684,335	-	684,335
By State Law	40,756	-	40,756
By Contract	-	37,423	37,423
By Creditor	-	73,387	73,387
	<u>\$ 752,153</u>	<u>\$ 110,810</u>	<u>\$ 862,963</u>

NOTE 11 - INTERFUND TRANSFERS

During the year ended December 31, 2025, the City transferred \$33,000 from the BBB fund to the General Fund for use in promoting the City.

NOTE 12 - PLEDGED REVENUES

In accordance with certain debt agreements, the City has pledged revenues for the repayment of debt obligations. The City has pledged water user revenues for the repayment of state revolving fund bonds. Virtually all revenues of the water fund are pledged for the repayment of debt, including a specific water user surcharge that is assessed to all users monthly.

NOTE 13 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of the independent auditor's report, which is the date the financial statements were available to be issued.

City of Martin, South Dakota
Notes to the Supplementary Information
For the Year Ended December 31, 2025

NOTE 1 - BASIS OF PRESENTATION

The budgetary comparison schedule has been prepared on the modified cash basis of accounting and presents capital outlay and debt service disbursements within each function, similar to the Statement of Activities - Modified Cash Basis.

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

The City follows these procedures in establishing the budgetary data reflected in the supplementary information:

1. At the first regular Council meeting in September of each year or within 10 days thereafter, the City Council introduces the annual appropriations ordinance for the ensuing fiscal year.
2. After adoption by the City Council, the operating budget is legally binding and actual disbursements for each purpose cannot exceed the amounts budgeted except as indicated in number 4.
3. A line item for contingencies may be included in the annual budget. Such line item may not exceed five percent of the total municipal budget and may be transferred by resolution of the City Council to any other budget category that is deemed insufficient during the year.
4. If it is determined during the year that sufficient amounts have not been budgeted, state statute allows the adoption of supplemental budgets.
5. Unexpended appropriations lapse at year-end unless encumbered by resolution of the City Council. The City did not encumber any amounts at December 31, 2025.

NOTE 3 - PROPORTIONATE SHARE OF THE NET PENSION LIABILITY (ASSET) AND PENSION CONTRIBUTIONS

Changes from Prior Valuation

The June 30, 2025 actuarial valuation reflects no changes to the plan provisions or actuarial methods and one change to the actuarial assumptions from the June 30, 2024 actuarial valuation.

The details of the changes since the last valuation are as follows:

Benefit Provision Changes

During the 2025 legislative session, no significant SDRS benefit changes were made.

Actuarial Method Changes

No changes in actuarial methods were made since the prior valuation.

Actuarial Assumption Changes

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0% and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in an FVFR equal to or exceeding 100%.

As of June 30, 2024, the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (2.25%) was less than 100% and the July 2025 SDRS COLA was limited to a restricted maximum of 1.71%. For the June 30, 2024 Actuarial Valuation, future COLAs were assumed to equal the restricted maximum COLA assumption of 1.71%.

See independent auditor's report.

City of Martin, South Dakota
Notes to the Supplementary Information
For the Year Ended December 31, 2025

NOTE 3 - PROPORTIONATE SHARE OF THE NET PENSION LIABILITY (ASSET) AND PENSION CONTRIBUTIONS (CONTINUED)

As of June 30, 2025, the FVFR assuming future COLAs equal to the baseline COLA assumption of 2.25% is again less than 100% and the July 2026 SDRS COLA is limited to a restricted maximum of 1.56%. The July 2026 SDRS COLA will equal inflation, between 0% and 1.56%. For this June 30, 2025 Actuarial Valuation, future COLAs were assumed to equal the restricted maximum COLA of 1.56%.

Actuarial assumptions are reviewed for reasonability annually and reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2027 Actuarial Valuation and any recommended changes approved by the Board of Trustees are anticipated to be first implemented in the June 30, 2027 Actuarial Valuation.

See independent auditor's report.
