## Independent Auditor's Report

To the School Board  
Warner School District 6-5  
Warner, South Dakota

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Warner School District 6-5 (the School District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Warner School District 6-5, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the schedule of employer's share of net pension liability (asset), schedule of employer's contributions, and budgetary comparison information on pages 37 through 45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion nor provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by the missing information.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 9, 2021, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Warner School District 6-5

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Government-Wide Statement of Activities  
Year Ended June 30, 2020

Net Change in Fund Balances - Total Governmental Funds	\$ (95,427)
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays of \$406,166 exceeded depreciation of \$279,740 in the current period.	126,426
In the statement of activities, gains and losses on disposals of capital assets are reported; whereas, in the governmental funds, the proceeds from the disposal of capital assets is reflected, regardless of whether a gain or loss is realized.	(6,957)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	195,000
Capital lease payments are expenditures in the governmental funds, when due, but repayments reduce long-term liabilities in the statement of net position.	6,530
The issuance of capital leases is an other financing source in the fund statements, but is an increase in long-term liabilities on the government wide statements.	(14,825)
The fund financial statement governmental fund property tax differs from the government-wide statement property tax accruals in that the fund financial statements require the amounts to be "available."	9,302
Changes in the pension-related deferred outflows/inflows are direct components of pension liability (asset) and are not reflected in the governmental funds.	<u>(219,250)</u>

## **Note 1 - Summary of Significant Accounting Policies**

The accounting policies of the Warner School District 6-5 conform to generally accepted accounting principles applicable to government entities in the United States of America.

### **Financial Reporting Entity**

The reporting entity of Warner School District 6-5 (the School District), consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the School District); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the School District's financial statements to be misleading or incomplete.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The School District is financially accountable if its governing board appoints a voting majority of another organization's governing body and it has the ability to impose its will on that organization, or there is a potential for that organization to provide specific financial benefits to, or impose specific financial burdens on, the School District (primary government). The School District may also be financially accountable for another organization if that organization is fiscally dependent on the School District. The School District has one component unit, Northern High Tech Consortium, which is presented as a blended component unit.

The School District participates in a cooperative service unit with several other school districts. See detailed note entitled "Joint Ventures" for specific disclosures. Joint ventures do not meet the criteria for inclusion in the School District as a component unit, but are discussed in these notes because of the nature of their relationship with the School District.

### **Basis of Presentation**

The financial statements of the School District have been prepared in accordance with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The GASB is the standard setting body for governmental accounting and financial reporting.

### **Government-Wide Financial Statements**

The statement of net position and statement of activities display information about the School District as a whole. They include all funds of the School District except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of net position reports all financial and capital resources, in a net position form (assets and deferred outflows of resources minus liabilities and deferred inflows of resources equal net position). Net position is displayed in three components, as applicable: net investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

### **Fund Financial Statements**

Fund financial statements of the School District are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, deferred inflows, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the School District or it meets the following criteria:

1. Total assets, liabilities, and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type; and
2. Total assets, liabilities, and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined; or
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year-to-year, or because of public interest in the fund's operations.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary services.

The funds of the School District are described below within their respective fund types:

### **Governmental Funds**

**General Fund** - A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the School District, excluding Capital Outlay Fund and Special Education Fund expenditures. The General Fund is always a major fund.

**Special Revenue Fund Types** – Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Capital Outlay, Special Education, Northern High Tech Consortium, and Pension Funds are the special revenue funds maintained by the School District.

**Capital Outlay Fund** – A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of, or additions to real property, plant or equipment, textbooks and instructional software. This fund is financed by property taxes and grants. This is a major fund.

Special Education Fund – A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the School District. This fund is financed by property taxes. This is a major fund.

Pension Fund – A fund established by SDCL 13-10-6 for the purpose of paying pensions to retired employees of school districts which have established such systems, paying the School District’s share of retirement plan contributions, and for funding early retirement benefits to qualifying employees. This fund is financed by property taxes. This is a major fund. This fund was closed in 2020.

Northern High Tech Consortium – A fund established to provide technological equipment to member school districts. This fund is financed by grants. This is a major fund.

Debt Service Fund Types – Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Bond Redemption Fund – A fund established by SDCL 13-16-13 to account for the proceeds of a special property tax restricted to use for the payment of principal and interest on general obligation bonded debt. This is a major fund.

### **Proprietary Funds**

Enterprise Fund Types – Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Food Service Fund – A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

Other Enterprise Fund (Driver’s Education and Preschool) – A fund used to record financial transactions related to driver’s education and preschool operations. This fund is financed by student tuition charges. This is a major fund.

### **Fiduciary Funds**

Fiduciary Funds are never considered to be major funds.

Agency Fund Types – Agency funds are used to account for resources held by the School District in a purely custodial capacity (assets equal liabilities). Since agency funds are custodial in nature they do not involve the measurement of results of operations. The School District maintains agency funds to hold assets as an agent in a trustee capacity for student funds generated within the School District by the students or other School District organizations.

Private-Purpose Trust Fund – Private-purpose trust fund was created to act as a custodian for funds, such as scholarships, held in trust for the benefit of private individuals or organizations. The School District maintains only one private-purpose trust fund for scholarships.

### **Measurement Focus and Basis of Accounting**

Measurement focus is a term used to describe “how” transactions are recorded within the various financial statements. Basis of accounting refers to “when” revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

### **Measurement Focus**

#### **Government-Wide Financial Statements**

In the government-wide statement of net position and statement of activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

#### **Fund Financial Statements**

In the fund financial statements, the current financial resources measurement focus and the modified accrual basis of accounting are applied to governmental funds types; while the economic resources measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary funds types.

### **Basis of Accounting**

#### **Government-Wide Financial Statements**

In the government-wide statement of net position and statement of activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and, expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

#### **Fund Financial Statements**

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. “Available” means resources are collected, or to be collected, soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period does not exceed one bill-paying cycle, and for the School District, the length of that cycle is 60 days.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary funds and fiduciary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

### **Interfund Eliminations and Reclassifications**

#### **Government-Wide Financial Statements**

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified.

In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns, except for the net, residual amounts due between governmental and business-type activities, which are presented as internal balances.

#### **Fund Financial Statements**

Current portions of interfund receivables (reported in "Due from" asset accounts) are considered "available spendable resources" and are reported in the appropriate fund balance category.

#### **Inventory**

Inventory is stated at the lower of cost or market. The cost valuation method is first-in, first-out (FIFO). Donated commodities are valued at estimated market value based on USDA price list at the date of receipt. In the government-wide financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed. In the fund financial statements, inventories in the General Fund and the special revenue funds consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are purchased. Reported inventories are equally offset by nonspendable fund balance amounts which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets. The School District did not have any material amounts of inventory in the General Fund or special revenue funds.

#### **Capital Assets**

Capital assets include land, buildings, machinery, equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

#### **Government-Wide Statements**

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their acquisition value on the date donated.

For governmental activities, construction-period interest is not capitalized along with other capital asset costs.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the government-wide statement of activities, with net capital assets reflected in the statement of net position. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Land*	All Land Values	N/A	N/A
Improvements	\$ 10,000	Straight-Line	10-50 years
Buildings	20,000	Straight-Line	20-50 years
Equipment	3,000	Straight-Line	3-20 years
Library books	All Values	Straight-Line	5 years
Food service equipment	500	Straight-Line	5-12 years

*\*Land is an inexhaustible capital asset and is not depreciated.*

### Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

### Long-Term Liabilities

The accounting treatment of long-term liabilities depends on whether the proceeds are used in governmental fund operations or proprietary fund operations, and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities primarily consist of bonds payable and financing lease obligations.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide statements.

### **Deferred Outflows and Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has two items that qualify for reporting in this category. They are the contributions made to pension plans after the measurement date and prior to the fiscal year-end, and changes in the net pension liability (asset) not included in pension revenue/expense reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has two types of items that qualify for reporting in this category. The School District reports unavailable revenues from property taxes on the government-wide statement of net position and unavailable revenues from property taxes and other grant revenues on the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other item is changes in the net pension liability (asset) not included in pension revenue/expense reported in the government-wide statement of net position.

### **Program Revenues**

In the government-wide statement of activities, reported program revenues derive directly from the program itself or from parties other than the School District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

1. Charges for Services – These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
2. Program-Specific Operating Grants and Contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
3. Program-Specific Capital Grants and Contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

### **Property Taxes**

Property taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied on or before October 1, and are payable in two installments on or before April 30 and October 31 of the following year. Approximately 50% is considered to be applied to finance the budget of the current fiscal year, and the remaining percentage (50%) is considered to be applied to finance the budget for the subsequent year. The county bills and collects the School District's taxes and remits them to the School District. School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations.

Current year property taxes receivable, which are not available as a resource that can be used to finance the current year's appropriations and, therefore, are not susceptible to accrual, have been reported as unavailable revenue in both the fund financial statements and the government-wide financial statements. Additionally, in the fund financial statements, revenue from property taxes may be limited by any amount not collected during the current fiscal period or within the availability period.

### **Proprietary Funds Revenue and Expense Classifications**

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

In the proprietary fund's statement of activities, revenues and expenses are classified in a manner consistent with how they are classified in the statement of cash flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

### **Cash, Cash Equivalents, and Investments**

The School District pools its cash resources for depositing and investing purposes. Accordingly, the enterprise funds have access to its cash resources on demand. All reported enterprise fund deposit and investment balances are considered to be cash equivalents for the purpose of the statement of cash flows.

Investments classified in the financial statements consist primarily of certificates of deposit whose term to maturity at date of acquisition exceeds three months, and those types of investment authorized by South Dakota Codified Law (SDCL) 4-5-6.

### **Equity Classifications**

#### **Government-Wide Statements**

Equity is classified as net position and is displayed in three components:

1. Net Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted Net Position – Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted Net Position – All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

**Fund Financial Statements**

Governmental fund equity is classified as fund balance, and is distinguished between nonspendable, restricted, committed, assigned, or unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity (except for Agency Funds, which have no fund equity) is reported as net position held in trust for other purposes.

**Application of Net Position**

It is the School District’s policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

**Fund Balance Classification Policies and Procedures**

The School District classifies governmental fund balance as follows:

- Nonspendable – Includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual restraints.
- Restricted – Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation.
- Committed – Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority, which is the School Board, and does not lapse at year-end.
- Assigned – Includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund balance may be assigned by the School Board or Business Manager.
- Unassigned – Includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

Nonspendable fund balance is comprised of deposits paid for services which will be refunded back to the School District if services are no longer received and prepaid insurance.

The School District uses restricted/committed amounts first when both restricted and unrestricted fund balances are available unless there are legal documents/contracts that prohibit doing this, such as grant agreements requiring dollar-for-dollar spending. Additionally, the government would first use committed, then assigned, and, lastly, unassigned amounts of unrestricted fund balance when expenditures are made.

The government does not have a formal minimum fund balance policy.

The purpose of each major special revenue fund and revenue source is listed below:

Major Special Revenue Fund	Revenue Source
Capital Outlay Fund	Grants and Property Taxes
Special Education Fund	Property Taxes
Pension Fund	Property Taxes
Northern High Tech Consortium	Grants

## **Pensions**

For purposes of measuring the net pension liability (asset), deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deductions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

## **Rounding**

Computer generated rounding variances may exist in the basic financial statements and supplementary information. The variances result from values being entered as whole numbers rather than with cents.

## **Note 2 - Deposits and Investments Credit Risk, Concentrations of Credit Risk, and Interest Rate Risk**

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized as follows.

### **Deposits**

The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1, and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100% of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA.

In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA," or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Deposits are reported at cost plus interest, if the account is of the add-on type.

Custodial Credit Risk – Deposits – The risk that, in the event of a bank failure, the School District's deposits may not be returned. The School District's deposit policy requires deposits in excess of the Federal Depository Insurance Corporation (FDIC) maximums to be 100% collateralized as required by South Dakota Codified Law.

The financial institutions where the collateral is held must be a member of the FDIC. As of June 30, 2020, the financial institutions that hold the School District's deposits were properly collateralized.

The actual bank balances at June 30, 2020, were as follows:

Insured (FDIC/NCUA)	\$ 500,000
Uninsured, collateral jointly held by State's/School District's agent in the name of the State and the pledging financial institution	<u>1,829,102</u>
	<u>\$ 2,329,102</u>
The School District's carrying amount of deposits at June 30, 2020	<u>\$ 2,323,363</u>

Reconciliation of deposits to government-wide statement of net position:

Cash and cash equivalents	\$ 1,346,683
Add: Fiduciary Fund cash (not included in government-wide statement of net assets)	<u>173,724</u>
Add: Investments (Certificates of Deposit)	<u>802,956</u>
	<u>\$ 2,323,363</u>

### Investments

In general, SDCL 4-5-6 permits School District funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or (c) in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent. The School District holds certificates of deposit as investments which are valued at amortized cost.

**Custodial Credit Risk** – The risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have an investment policy for custodial risk.

**Interest Rate Risk** – The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The School District's certificates of deposit mature within one year.

**Credit Risk** – State law limits eligible investments for the School District, as discussed above. The School District has no investment policy that would further limit its investment choices.

**Concentration of Credit Risk** – The School District places no limit on the amount that may be invested in any one issuer.

State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The School District's policy is to credit all income from investments to the fund making the investment.

**Note 3 - Receivables and Payables**

Receivables and payables are aggregated in the government-wide financial statements. However, the fund financial statements present the receivable and payable information in a non-aggregated format. The School District expects all receivables to be collected within one year. Based on the nature of the receivables, no allowance for estimates uncollectible have been established. As of June 30, 2020, the School District has amounts due from other governments which consists of amounts due from state sources of \$40,115 in the General Fund.

**Note 4 - Changes in Capital Assets**

A summary of changes in capital assets for the fiscal year ended June 30, 2020, is as follows:

<u>Primary Government</u>	<u>Balance 6/30/19</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance 06/30/20</u>
Governmental Activities				
Capital assets, not being depreciated				
Land	\$ 43,728	\$ -	\$ -	\$ 43,728
Construction in progress	93,507	-	93,507	-
Total not being depreciated	<u>137,235</u>	<u>-</u>	<u>93,507</u>	<u>43,728</u>
Capital assets, being depreciated

Depreciation expense was charged to functions as follows:

Business-Type Activities	
Food service	<u>\$ 2,359</u>

#### Note 5 - Long-Term Liabilities

A summary of the changes in long-term liabilities for the year ended June 30, 2020, is as follows:

Purpose	Amounts Outstanding 6/30/19	Issued	Retired	Amounts Outstanding 6/30/20	Due in One Year
General Obligation Bonds - 2009	\$ 615,000	\$ -	\$ 95,000	\$ 520,000	\$ 100,000
Capital Outlay Certificates - 2014	1,815,000	-	100,000	1,715,000	100,000
	<u>\$ 2,430,000</u>	<u>\$ -</u>	<u>\$ 195,000</u>	<u>\$ 2,235,000</u>	<u>\$ 200,000</u>

Debt payable at June 30, 2020, is comprised of the following:

#### General Obligation Bonds

General Obligation Bonds Series 2009, interest ranges from 3.25% to 5.5%, maturity dates January 1, 2016 to January 1, 2025, paid by the Bond Redemption Fund 2.

\$ 520,000

#### Capital Outlay Certificates

Capital Outlay Certificates 2014, interest ranges from .06% to 4.5%, maturity dates January 1, 2016 to January 1, 2034, paid by the Capital Outlay Fund.

1,715,000

\$ 2,235,000

The annual debt service requirements to maturity for all debt outstanding as of June 30, 2020, are as follows:

Year Ending June 30,	General Obligation - 2009		Capital Outlay Certificates - 2014		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2021	\$ 100,000	\$ 24,405	\$ 100,000	\$ 58,965	\$ 200,000	\$ 83,370
2022	100,000	19,730	105,000	56,679	205,000	76,409
2023	105,000	14,398	105,000	54,001	210,000	68,399
2024	105,000	8,832	110,000	51,070	215,000	59,902
2025	110,000	3,025	110,000	47,908	220,000	50,933
2026-2030	-	-	610,000	182,785	610,000	182,785
2031-2035	-	-	575,000	53,212	575,000	53,212
	<u>\$ 520,000</u>	<u>\$ 70,390</u>	<u>\$ 1,715,000</u>	<u>\$ 504,620</u>	<u>\$ 2,235,000</u>	<u>\$ 575,010</u>

#### Note 6 - Other Long-Term Liabilities

A summary of the changes in other long-term liabilities for the year ended June 30, 2020, is as follows:

Purpose	Amounts Outstanding 6/30/19	Issued	Retired	Amounts Outstanding 6/30/20	Due in One Year
Century Business Products Capital Lease - 2016	\$ 470	\$ -	\$ 470	\$ -	\$ -
Century Business Products Capital Lease - 2017	6,075	-	2,849	3,226	2,972
Marco Capital Lease - 2020	-	14,825	3,211	11,614	3,441
	<u>\$ 6,545</u>	<u>\$ 14,825</u>	<u>\$ 6,530</u>	<u>\$ 14,840</u>	<u>\$ 6,413</u>

Lease payable at June 30, 2020, is comprised of the following:

#### Other Long-Term Liabilities

Copier lease with Century Business Products, Inc., 4.25% interest rate, monthly payments of \$254, paid from Capital Outlay Fund.	\$ 3,226
Copier lease with Marco, 11.41% interest rate, monthly payments of \$382, paid from Capital Outlay Fund.	<u>11,614</u>
	<u>\$ 14,840</u>

The annual lease service requirements to maturity for all leases outstanding as of June 30, 2020, are as follows:

Year Ending June 30,	Century Business Products Capital Leases - 2017		Century Business Products Capital Leases - 2020		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2021	\$ 2,972	\$ 80	\$ 3,441	\$ 1,149	\$ 6,413	\$ 1,229
2022	254	1	3,855	735	4,109	736
2023	-	-	4,318	272	4,318	272
	<u>\$ 3,226</u>	<u>\$ 81</u>	<u>\$ 11,614</u>	<u>\$ 2,156</u>	<u>\$ 14,840</u>	<u>\$ 2,237</u>

### Note 7 - Restricted Net Position

The following table shows the net position restricted for other purposes as shown on the statement of net position:

<u>Purpose</u>	<u>Restricted By</u>	<u>Amount</u>
Capital Outlay	Law	\$ 930,514
Special Education	Law	286,793
SDRS Pension Purposes	Law	246,841
Northern High Tech Consortium	Federal Regulation	17,950
Bond Redemption	Debt Agreement	22,540
		<u>\$ 1,504,638</u>

### Note 8 - Joint Ventures

The School District participates in the following joint venture:

North Central Special Education Coop, a multi-district cooperative service unit (Co-op) formed for the purpose of providing special education services to the member school districts. All members participate equally. Members of the co-op are as follows:

Edmunds Central School District	Doland School District
Frederick Area School District	Leola School District
Groton Area School District	Hitchcock Tulare School District
Langford Area School District	Warner School District
Northwestern Area School District	

The North Central Special Education Cooperative's governing board is composed of one representative from each member school district. The Board is responsible for adopting the Co-op's budget and setting service fees at a level adequate to fund the adopted budget.

The School District retains no equity interest in the net position of the Co-op, but does have a responsibility to fund deficits of the Co-op in proportion to the relative participation described above. At June 30, 2020, the North Central Special Education Cooperative had fund equity of \$290,883 and no long-term debt. Financial statements are available by contacting the North Central Special Education Cooperative.

#### **Note 9 - Risk Management**

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2020, the School District managed its risks as follows:

##### **Employee Health Insurance**

The School District purchases health insurance for its employees from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

##### **Liability Insurance**

The School District purchases insurance for risks related to torts; theft or damage to property; and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

##### **Worker's Compensation**

The School District participates, with several other educational units and related organizations in South Dakota, in the Associated School Boards of South Dakota Workers' Compensation Fund Pool which provided workers' compensation insurance coverage for participating members of the pool. The School District is responsible for payment of a premium to the insurance pool along with other pool participants. The School District may also be responsible for additional assessments in the event the pool is determined by its board of trustees to have inadequate reserves to satisfy current obligations or judgments. Additional assessments, if any, are to be determined on a prorated basis based upon each participant's percentage of contribution in relation to the total contributions to the pool of all participants for the year in which the shortfall occurs. The pool provides loss coverage to all participants through pool-retained risk retention and through insurance coverage purchased by the pool in excess of the retained risk. For the year ended June 30, 2020, the pool pays the first \$500,000 of any claim per individual. The pool has reinsurance, which covers up to \$1,000,000 per individual, per incident. There was no additional assessment charged to pool members for the year ended June 30, 2020.

The School District does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

##### **Unemployment Benefits**

The School District has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

During the year ended June 30, 2020, no claims for unemployment benefits were paid. At June 30, 2020, no claims had been filed for unemployment benefits and none are anticipated in the next fiscal year.

#### **Note 10 - Interfund Transactions**

During 2020, the Capital Outlay Fund purchased equipment for \$7,647 which was transferred to the Food Service Fund. The Pension Fund also transferred \$198,218 to the General Fund to close the Pension Fund.

At June 30, 2020, the Capital Outlay fund owed the Trust and Agency Fund for a prior year payable. This amount will be paid back in 2021. Also at June 30, 2020, \$16,372 was owed by the Food Service Fund and \$571 was owed by the Other Enterprise Fund to the General Fund to cover cash shortfalls in the respective funds. These amounts are repaid when cash is available during the next year.

#### **Note 11 - Pension Plan**

##### **Plan Information**

All employees working more than 20 hours per week during the year participate in the South Dakota Retirement System (SDRS), a cost-sharing, multiple-employer, defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering, and amending plan provisions are found in South Dakota Codified Law 3-12. The SDRS issues a publicly-available financial report that includes financial statements and required supplementary information. That report may be obtained at <https://sdrs.sd.gov/publications.aspx> or by writing to the SDRS, PO Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

##### **Benefits Provided**

SDRS has three different classes of employees: Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85, or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirement benefits that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

The 2017 legislation modified the COLA, effective for July 1, 2018, increase:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to the long-term inflation assumption of 2.25%.
- If the fair value of assets is greater than or equal to the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater than or equal to the accrued liabilities.

All benefits, except those depending on the Member’s Accumulated Contributions, are annually increased by the Cost-of-Living Adjustment.

**Contributions**

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan: Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee’s contribution. The School District’s share of contributions to the SDRS for the fiscal years ending June 30, 2020, 2019, and 2018, were \$97,474, \$95,771, and \$94,900, respectively, equal to the required contributions each year.

**Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions**

At June 30, 2019, SDRS is 100.09% funded and, accordingly, has a net pension asset. The proportionate share of the components of the net pension asset of SDRS, for the School District as of the measurement period ending June 30, 2019, and reported by the School District as of June 30, 2020, are as follows:

Proportionate share of pension liability	\$ 9,445,714
Less proportionate share of net pension restricted for pension benefits	<u>9,453,746</u>
Proportionate share of net pension asset	<u><u>\$ (8,032)</u></u>

At June 30, 2020, the School District reported an asset of \$8,032 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2019, and the total pension liability used to calculate the net pension asset was based on a projection of the School District's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2019, the School District's proportion was 0.07579490%, which is a decrease of 0.0002868% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the School District recognized pension expense (reduction of pension expense) of \$226,624. At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 31,507	\$ 3,636
Changes in assumption	277,411	113,725
Net difference between projected and actual earnings on pension plan investments	-	46,272
Changes in proportion and difference between School District contributions and proportionate share of contributions	2,096	6,046
School District contributions subsequent to the measurement date	97,474	-
Total	\$ 408,488	\$ 169,679

There is \$97,474 reported as deferred outflow of resources related to pensions resulting from School District contributions subsequent to the measurement date which will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year Ended June 30:	Amount
2020	\$ 171,991
2021	(28,146)
2022	(18,060)
2023	15,550
Total	\$ 141,335

### Actuarial Assumptions

The total pension asset in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	Graded by years of service, from 6.50% at entry to 3.00% after 25 years of service
Discount rate	6.50% net of plan investment expense
Future COLAs	1.88%

Mortality rates were based on 97% of the RP-2014 Mortality Table, projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	58.0%	4.7%
Fixed Income	30.0%	1.7%
Real Estate	10.0%	4.3%
Cash	2.0%	0.9%
Total	100.0%	

#### **Discount Rate**

The discount rate used to measure the total pension liability (asset) was 6.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that matching employer contributions will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

**Sensitivity of Liability (Asset) to Changes in the Discount Rate**

The following presents the School District’s proportionate share of net pension liability (asset) calculated using the discount rate of 6.50%, as well as what the School District’s proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
School District's proportionate share of the net pension liability (asset)	\$ 1,333,185	\$ (8,032)	\$ (1,100,882)

**Pension Plan Fiduciary Net Position**

Detailed information about the plan’s fiduciary net position is available in the separately issued SDRS financial report.

**Note 12 - Commitments and Contingencies**

**Litigation**

At June 30, 2020, the School District was not involved in any litigation.

**Risk Management: COVID-19 Pandemic**

During 2020, the world-wide coronavirus pandemic impacted national and global economies. The School District is closely monitoring its operations, liquidity and capital resources and is actively working to minimize the current and future impact of this unprecedented situation. As of the date of issuance of these financial statements, the current and future full impact to the School District is not known.

**Note 13 - Net Position Deficit**

The Other Enterprise Fund is reporting a net deficit of \$140 as of June 30, 2020. The School District plans to continue to monitor the revenue and expenses of the fund to ensure the deficit can be made up. If the deficit grows, the School District will determine if a transfer from another fund will be needed to supplement operations.

Required Supplementary Information  
June 30, 2020

## Warner School District 6-5

Warner School District 6-5  
 Budgetary Comparison Schedule – Budgetary Basis – General Fund  
 Year Ended June 30, 2020

**Note 1 - Basis of Presentation**

The budgetary comparison schedules have been prepared on the modified accrual basis of accounting. The budgetary comparison schedules present expenditures for capital outlay purposes within each function while the governmental funds statement of revenues, expenditures, and changes in fund balance presents capital outlay expenditures as a separate function.

**Note 2 - Budgetary Legal Requirements**

**Budgets and Budgetary Accounting**

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the first regular School Board meeting in May of each year, the School Board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
2. The proposed budget is considered by the School Board at the first regular meeting held in the month of May of each year.
3. The proposed budget is published for public review no later than July 15 each year.
4. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
5. Before October 1 of each year, the School Board must approve the budget for the ensuing fiscal year for each fund, except trust and agency funds.
6. After adoption by the School Board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in Number 8.
7. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5% of the total School District budget and may be transferred by resolution of the School Board to any other budget category, except for capital outlay, that is deemed insufficient during the year.
8. If it is determined during the year that sufficient amounts have not been budgeted, state statute allows adoption of supplemental budgets when monies are available to increase legal spending authority.
9. Unexpended appropriations lapse at year-end unless encumbered by resolution of the School Board.
10. Formal budgetary integration is employed as a management control device during the year for the general fund, capital project funds, and special revenue funds. Formal budgetary integration is not employed for debt service funds because effective budgetary control is alternatively achieved through general obligation bond indenture provisions.

SDRS	6/30/2015	76,756	76,756	-	1,279,271	6.0%

\*GASB Statement No. 68 requires ten years of information to be presented in this table. However, until a full 10-year trend is compiled, the School District will present information for those years for which information is available.

**Changes of Benefit Terms**

No significant changes.

**Changes of Assumptions**

Legislation enacted in 2017 modified the SDRS COLA. For COLAs first applicable in 2018, the SDRS COLA will equal the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0.5% and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that, if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2018, and exists again this year as of June 30, 2019. Future COLAs are assumed to equal the current restricted maximum COLA which was 2.03% as of June 30, 2018, and is 1.88% as of June 30, 2019.

The changes in actuarial assumptions decreased the Actuarial Accrued Liability by 1.5% of the Actuarial Accrued Liability based on the 2.03% COLA, reflecting the current and assumed future restricted maximum COLA of 1.88%.

Actuarial assumptions are reviewed in-depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

**Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

The School Board  
Warner School District 6-5  
Warner, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Warner School District 6-5 (the School) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Warner School District 6-5’s basic financial statements, and have issued our report thereon dated February 9, 2021.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the School District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings as 2020-001 and 2020-002 that we consider to be material weaknesses.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Warner School District 6-5's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**School District's Response to Findings**

Warner School District 6-5's response to the findings identified in our audit is described in the accompanying schedule of findings. The School's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, as required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

Aberdeen, South Dakota  
February 9, 2021

## Current Audit Findings and Recommendations

### Finding 2020-001 - Preparation of Financial Statements and Footnotes, and Material Proposed Adjustments to the Financial Statements

#### Material Weakness

*Criteria:* An organization's internal control structure should provide for the recording of all necessary material adjustments and the preparation of financial statements and footnotes in accordance with generally accepted accounting principles.

*Condition:* Warner School District 6-5 does not have an internal control system designed to provide for the preparation of the financial statements being audited, including required footnotes and disclosures and all necessary material audit adjustments, in accordance with generally accepted accounting principles.

*Cause:* The School District does not have adequate staff trained to prepare the financial statements and footnotes.

*Effect:* This condition may affect the School District's ability to report financial data consistent with the assertions of management in the financial statements.

*Recommendation:* This circumstance is not unusual in an organization of this size. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

*Views of Responsible Officials:* Management agrees with the finding.

### Finding 2020-001 Lack of Segregation of Duties and Lack of Reconciliations Completed on a Timely Basis

#### Material Weakness

*Criteria:* A good system of internal controls contemplates an adequate segregation of duties so that no one individual handles a transaction from its inception to its completion. Along with that, controls should be in place to complete reconciliations over all significant balances on a timely basis.

*Condition:* Warner School District 6-5 has a limited number of office personnel and, accordingly, does not have adequate internal accounting controls in expenditures and payroll functions because of a lack of segregation of duties. Also, reconciliations were not completed over accounts payable and cash on a timely basis.

*Cause:* The School District has insufficient number of staff to adequately separate duties in all areas.

*Effect:* This condition increases the risk that fraud or errors might occur and not be detected in the financial reporting process.

*Recommendation:* Although it is recognized that number of office staff may not be large enough to permit an adequate segregation of duties in all respects, it is important that management and those charged with governance be aware of this condition. We recommend that the School Board exercise adequate oversight of the accounting function. We also recommend the School Board have oversight on the reconciliation process to ensure they are being completed timely.

*Views of Responsible Officials:* Management agrees with the finding.
