INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Kristi Noem
Governor of South Dakota

and

Board of Directors
South Dakota Economic Development Finance Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the South Dakota Economic Development Finance Authority (Authority), a component unit of the State of South Dakota, as of and for the year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise the Authority’s basic financial statements, and have issued our report thereon dated October 10, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

Martin L. Guindon, CPA
Auditor General

October 10, 2019
INDEPENDENT AUDITOR’S REPORT

The Honorable Kristi Noem
Governor of South Dakota

and

Board of Directors
South Dakota Economic Development Finance Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the South Dakota Economic Development Finance Authority (Authority), a component unit of the State of South Dakota, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting
estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of June 30, 2019, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 5-6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated October 10, 2019 on our consideration of the Authority’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Authority’s internal control over financial reporting and compliance.

Martin L. Guindon, CPA
Auditor General

October 10, 2019
This section of the Economic Development Finance Authority’s (Authority) annual financial report presents management’s discussion and analysis of the Authority’s financial performance during the fiscal year ended June 30, 2019. This analysis should be read in conjunction with the Independent Auditor’s Report, financial statements, and notes to the financial statements.

**Financial Analysis**

During the year the Authority received $816,540 in regularly scheduled pooled loan payments and paid $840,395 in principal and interest payments on the Series 2013A bonds. Additionally, the Authority received $46,074 in APEX loan repayments and currently has no debt owed for the APEX loan program. There were no additional APEX or pooled loans issued during the year.

**Financial Highlights as of June 30, 2019**

- Total assets of the Authority decreased $138,941 (or 0.76%) primarily due to the payment of bonds during the year ending June 30, 2019.
- Total liabilities of the Authority decreased by $414,018 (or 4.43%) primarily due to the decrease in bonds payable for the year ending June 30, 2019.
- No new bond issuances or early redemptions of bonds occurred in the year ending June 30, 2019.

- The related decreases to the balances in loans receivable and debt outstanding resulted in the associated decreases to interest income on loans and interest expense.

### Debt Administration:

- The Authority did not issue any tax-exempt bonds during fiscal year 2019.
- Outstanding bonds payable bear interest at rates ranging from 3.125% to 5.80% as of June 30, 2019. $395,000 of regularly scheduled bonds was redeemed during fiscal year 2019.
- The Authority’s bonds are rated AA by Standard and Poor’s as of June 30, 2019.
- More detailed information about the Authority’s debt can be found in Note 4, Long-Term Debt.

This report is presented to provide additional information regarding the operations of the Authority and to meet the requirements of GASB No. 34.
### Assets

Current Assets:
- Cash and Cash Equivalents (Note 2) $2,106,844

- Loan Escrow Payable (15,414)
  Total Adjustments 858,356
Net Cash Provided by Operating Activities $834,173

The notes to the financial statements are an integral part of this statement.
1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Authorizing Legislation

Executive Order 87-1 established the South Dakota Economic Development Finance Authority (Authority). The Authority was established for the purpose of making loans to businesses for the acquisition and construction of land, buildings, machinery, and equipment to spawn economic growth. The Authority is authorized by South Dakota Codified Law to issue negotiable notes and bonds in such principal amounts as it determines necessary to provide sufficient funds for achieving any of its corporate purposes. The total outstanding amount of such notes and bonds shall not exceed three hundred million dollars at any time. No obligation issued by the Authority shall constitute debt or liability or obligation of the State of South Dakota or any political subdivision or a pledge of the faith and credit of the State or any political subdivision. Because the State of South Dakota is able to impose its will over the Authority, but does not meet any of GASB’s criteria for blending, it is considered a discretely presented component unit of the State. The Authority is a business-type activity component unit of the State of South Dakota, and, as such, the accompanying financial statements are included in the Comprehensive Annual Financial Report of the State of South Dakota.

B. Fund Accounting

The Authority is accounted for as an enterprise fund. Enterprise funds are used to account for activities for which a fee is charged to external users for goods or services. This fund type is also used when the activity is financed with debt that is secured by a pledge of the net revenues from fees.

C. Basis of Accounting

The Authority is reported on the accrual basis of accounting. Revenue is recognized in the accounting period in which it is earned and expenses are recognized when they are incurred.

D. Cash and Cash Equivalents

This account includes cash and investments with original maturities of ninety days or less. Cash and cash equivalents reported in the Statement of Cash Flows represent all investments with an original maturity of ninety days or less.

E. Investments

Investments are reported at fair value. Unrealized gains and losses due to fluctuations in market value are included in investment income.
F. Loan Escrow Payable

All bond issues require that 10 percent of the original principal amount of the bond or the largest principal and interest payment for any one year be deposited into the Loan Escrow Payable. Amounts accumulating in excess of the Loan Escrow Payable requirements are applied toward borrower principal and interest payments.

G. Net Position

Net Position is classified in the following three components:

- Net investment in capital assets – This component consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any debt that is attributable to the acquisition, construction or improvement of those assets.
- Restricted – Consists of net position with constraints placed on their use by (1) bond indentures and (2) law through enabling legislation.
- Unrestricted – Consists of net position that does not meet the definition of net investments in capital assets or restricted.

H. Restricted Net Position

The bond indentures provide that certain reserve accounts be established. The reserve accounts, as of June 30, 2019, are comprised of restricted net position as follows:

| Capital Reserve Account | $ 5,000,000 |

The pooled bond issues require amounts to be deposited into the Capital Reserve Account. The money on deposit in the Capital Reserve Account is irrevocably pledged to the payment of all outstanding bonds and interest, only when and to the extent that other moneys are not available. The amount on deposit in the Capital Reserve Account must be equal to at least 12.5 percent of the related bond principal outstanding. Amounts in excess of the reserve requirements may be transferred and used for other purposes.

I. Conduit Debt Obligations

The Authority issues pooled and stand alone bond issues. A pooled bond issue is secured by the Authority’s Capital Reserve Account. A stand alone issue is based solely on the credit of the borrower and the Authority acts only as a conduit to the financing.

Conduit debt obligations are certain limited-obligation revenue bonds, certificates of participation, or similar debt instruments issued by an entity for the express purpose of providing capital financing for a specific third party that is not a part of the issuer’s financial reporting entity. The Authority has no obligation for such debt beyond the resources provided by a lease or loan with the third party on whose behalf they are issued and the debt is not included in the accompanying financial statements. As of June 30, 2019, the Authority had no stand-alone bond principal outstanding.
J. Restricted Resources

When both restricted and unrestricted resources are available for use, it is the Authority’s policy to use restricted resources first, and then unrestricted resources as they are needed.

K. Revenue and Expense Recognition

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering items in connection with an enterprise fund’s principal ongoing operations. The Authority records all revenues derived from interest on loans as operating revenues since these revenues are generated from the Authority’s daily operations needed to carry out its purpose. Operating expenses include interest expense, grants and subsidies, and contractual service expenses related to the administration of the Authority’s programs.

L. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Actual results could differ from those estimates.

2. CASH AND INVESTMENTS

Under the terms of the General Bond resolution of the 2013A pooled bond issue, the Authority is generally restricted to investments in direct obligations of the federal government and of any agency or instrumentality of the United States of America; debt obligation guaranteed by the federal government; bank instruments collateralized by debt obligations guaranteed by the federal government; and shares of an investment company whose investments are in debt obligations guaranteed by the federal government. The funds associated with the 2013A pooled bond issue can also be invested in notes, bonds, or indentures issued by a corporation organized under the laws of one of the states of the United States of America, provided they are rated in one of the two highest rating categories.

Restricted and Unrestricted Cash and Investments:
A portion of the total reported cash and investments are restricted resources set aside to subsidize potential deficiencies from the enterprise fund’s operation that could adversely affect debt services payments. Cash and investments are broken down as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Fair Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unrestricted Cash and Investments</td>
<td>$4,302,708</td>
</tr>
<tr>
<td>Restricted Cash and Investments – Capital Reserve Account and Loan Reserve Accounts</td>
<td>$5,842,210</td>
</tr>
<tr>
<td>Total Cash and Investments</td>
<td>$10,144,918</td>
</tr>
</tbody>
</table>
Custodial Credit Risk:
The custodial credit risk for deposits and investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value on investment securities and deposits that are in the possession of an outside party. The Authority does not have a policy in place for custodial credit risk. Investments securities totaling $2,138,350 were uninsured and unregistered, with securities held by the counterparty or by its trust department or agent, but not in the Authority’s name.

Interest Rate Risk:
The Authority limits the maturities of investments for its restricted accounts (all accounts other than the General Account) to terms of two years or less from the date of investment. As of June 30, 2019, the Authority had the following investments:

<table>
<thead>
<tr>
<th>Investment Type</th>
<th>Fair Value</th>
<th>Less Than 1</th>
<th>1-5</th>
<th>6-10</th>
</tr>
</thead>
<tbody>
<tr>

<td>$84,769</td>
</tr>
</tbody>
</table>

* U.S. Government Agency securities include the Federal Farm Credit Bank (FFCB), Federal National Mortgage Association (FNMA) and the Federal Home Loan Bank (FHLB).

Credit Risk:
The Investment Management Policy of the Authority limits investments in Corporate Bonds to those rated in either of the two highest rating categories by either Moody’s Investors Service or Standard & Poor’s Corporation.

As of June 30, 2019, the Authority had the following investments, excluding those issued by or explicitly guaranteed by the U.S. Government or insured by FDIC, which are not considered to have credit risk.

<table>
<thead>
<tr>
<th>Moody's Rating</th>
<th>Fair Value</th>

<tr>
<td>Total</td>
<td>$590,450</td>
</tr>
</tbody>
</table>

Concentration of Credit Risk:
Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government’s investment in a single issuer. The Authority does not have a policy on concentration of credit risk. The Authority does not have any concentration of credit risk, excluding any government issues.
The Authority’s policy permits the maximum portfolio exposure to permitted investments as follows:

<table>
<thead>
<tr>
<th></th>
<th>Restricted Account Portfolio Exposure</th>

</tr>
</tbody>
</table>

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

First National Bank (FNB), which serves as trustee, uses a pricing service, ICE Data Pricing and Referencing, LLC., to value investments. ICE Data Pricing and Referencing, LLC. uses market approach pricing which utilizes models and pricing systems as well as mathematical tools and pricing analyst judgment. All investments are priced by this service, which is not quoted prices in an active market, but rather significant other observable inputs; therefore, the investments in U.S. Treasury Notes, U.S. Government Agencies, and Municipal Bonds are categorized as Level 2.

3. LOANS RECEIVABLE

Change in loans receivable for the year ending June 30, 2019 consisted of the following:

<table>
<thead>
<tr>

</tbody>
</table>

5. **PUBLIC ENTITY POOL FOR LIABILITY**

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority participates in the various programs administered by the State of South Dakota. These risk management programs are funded through assessments charged to participating entities. The risk management program includes coverage for risks associated with automobile liability and general tort liability (including public officials’ errors and omissions liability, medical malpractice liability, law enforcement liability, and products liability) through the State’s Public Entity Pool for Liability Fund. Financial information
relative to the self-insurance funds administered by the State is presented in the State of South Dakota Comprehensive Annual Financial Report.

6. SUBSEQUENT EVENT

On 8/16/2019 First National Bank provided the EDFA with written notice of their intent to sell its Corporate Trust business to U.S. Bank, N.A. This change for the Pooled Loan Program was effective September 16, 2019 and U.S. Bank, N.A. took over as Trustee. The change for the APEX Loan program requires the EDFA’s consent and the EDFA is working to determine the next servicing agent as soon as possible.
