The 2710, 2730 and 2750 functional areas are to record only Special Education costs. A few transactions may be coded directly to the disability type if the costs only relate to that function and disability type. For example, a bill to transport a deaf-blind student may be coded directly to 2731. Most of the bills throughout the year may be batched to the 2730 and 2750 control accounts. These accounts must be zeroed out at the end of each year by moving costs to the respective disability types. Costs should be allocated to the disability types pro rata based on the number of students of each type that your school has.

Special Education Administrative Costs - applicable costs consist of the director and other support staff that are involved in administering the special education program. These costs could include salary, benefits, travel, telephone, supplies and other payments.

In practice, participation usually is not required and credit usually is not given. when participation is required or credit is given, the activity generally is considered to be a course. The generally accepted differential between extra-curricular and co-curricular is that extra-curricular activities such as basketball have no direct relationship to a class while co-curricular activities such as debate (speech) or class plays (drama or English) has a relationship to a class.
